

Network Security Engineer Network Security Engineer Network Engineer Fremont, CA Individual with 3+ years of professional experience as a Network Engineer and someone who is optimistic in nature with a great character looking for Network Engineer position. Extensive experience in designing, maintaining, monitoring, securing the networks with a great client supporting and troubleshooting skills. Authorized to work in the US for any employer Work Experience Network Security Engineer ANTHEM INC - Wallingford, CT July 2017 to January 2018 Roles & Responsibilities: * Implemented security policies, security profiles and managing and optimizing the rules on Checkpoint, Palo Alto, Cisco ASA firewalls. * Configured policies on Palo Alto firewalls and extensive experience working with PANORAMA management console, URL filtering, Antivirus, Anti Spyware. * Experienced working with Checkpoint firewalls ie; creating rules and installing the rules to the firewalls using management server. Experienced working with R76, R77, R80 Gaia. * Experienced working with URL filtering, IPS/IDS filtering, AntiVirus and Anti Spyware in Palo Alto, Checkpoint and Cisco ASA firewalls to prevent the networks from malware, trojans and preventing the users from accessing unwanted sites based on the company policies. * Implemented Site-Site(IP-SEC), Remote and DMVPN in different firewalls. * Extensive experience working with TCPDUMP, FWMONITOR for capturing the traffic flow and using it in troubleshooting and monitoring the networks. * Performed vulnerability scan reports using SUSSEN tool. * Performed URL filtering and content filtering by adding policies in Bluecoat proxy. * Had experience using different tools and technologies like FIREMON, TUFIN, SPLUNK for optimizing, auditing and reporting firewalls usage. * Experienced working with Wireshark and Solarwinds for monitoring and managing the networks. * Great knowledge and hands-on experience working with Palo Alto (5k, 7k), Checkpoint (R77, R80 Gaia), Cisco ASA (5520, 5540, 5550) series firewalls. Worked with different models of routers (1800, 2500, 2600, 3500, 3600, 7200) and switches (2900, 2960, 3560, 4500, 6500) Network Administrator OSI CONSULTING - Hyderabad, Telangana June 2013 to December 2015 Roles & Responsibilities: * Experienced working with OSPF using features like TSA, SA, NSSA and route summarization. Organized EBGP/IBGP rules also implemented BGP attributes such as Local preference, MED, AS-PATH Prepend, Community and Weight. *

Experience in configuring EIGRP, OSPF and BGP. * Experience working with Remedy ticketing tool in creating, managing and troubleshooting the tickets and provided technical support to clients in network related issues using mails and telephonic calls. * Great experience working with different switching and routing technologies like configuring VLANs, trunking using (802.1Q, ISL), VTP modes. * IOS upgradation, node additions, deletions and configuring and adding/replacing switches and routers in the existing network. * Experience working with MS VISIO for creating low-level network diagrams. * Documenting the changes and modifications in the network using ITIL management. * Experience working with Windows servers, Active Directory to provide access to users ie; adding users and groups and managing the group policy objects GPOs and VMware (vSphere, ESXi), vCenter server for creating, deploying virtual servers. * Experience in creating VMware templates, creating snapshots and cloning of virtual servers for future deployments in no-time and experience in using advanced features such as HA, DRS Fault-tolerance.

Education
 MASTER of SCIENCE in COMPUTER SCIENCE in Wireless Mobile Communications Kent State University
 BACHELOR of SCIENCE IN ELECTRONICS & COMMUNICATION ENGINEERING in Communication Networks Jawaharlal Nehru Technological University - Hyderabad, Telangana

Skills
 BGP (2 years), EIGRP (2 years), IOS (2 years), OSPF (2 years), Remedy (2 years)

Certifications/Licenses
 CCNA CCNP Palo alto ACE Additional Information

TECHNICAL SKILLS
 Routers, Switches& Firewalls Checkpoint (R76, R77, R80 Gaia, Provider-1/MDS), Cisco IOS, Nexus (5k, 7k), NX-OS, PaloAlto(5k, 7k), Panorama, CiscoASA(5k, 7k), Cisco PIX(525,535), ASDM

Operating Systems
 Windows Servers (2008, 2008R2, 2012R2, 2016), XP, Linux

Network Management Tools& Technologies
 Tcpdump, Sussen, Firemon, Wireshark, Solarwinds, EventViewer, Taskmanager, Splunk, Qradar, Tufin, RADIUS, TACAS, Domain Controller, WSUS, Bluecoat Proxy, Remedy ticketing tool, Symantec Backup Excel, MS Office Suite(Word, Excel, Outlook), Skype Business

Layer 2 & Layer 3 Protocols
 LAN/WAN, RIP (v1 &v2), EIGRP, OSPF, BGP, MPLS, STP, VLANs, VTP, HSRP, VRRP, GLBP, PVST, RSTP, MST, DNS, DHCP, SSL, HTTP, HTTPS, TCP/IP, OSI, VPN, IPSEC, NAT, ACLs, CDP, VRF, 802.11, Etherchannel, Ethernet, DES, 3DES, AES, MD5, SHA, Tunneling, QOS, IPv4, IPv6, vPC, vDC, FEX

Virtualization,

Programming& Scripting VMware ESXi, vSphere, vCenter server, High Availability, Distributed resource scheduling, Fault tolerance, VMware Update manager, vMotion, Storage vmotion, NIC Teaming, Python, C
