Additional Information WORK EXPERIENCE River Tech LLC - Beale AFB, CA May 2019 - Present Electronic Flight Bag (EFB) Manager Responsible for the maintenance, operation and training for the EFB system. Ensure the electronic flight bag servers have all required software patches and can operate on the Air Force computer network. Plan upgrades to the servers at such a time to have minimal impact on daily operations. Schedule and upgrade the EFB system software as updates become available from

the EFB vendor. These upgrades will be in compliances with DoD STIG standards for Mobile Device Management. Manage EFB program and devices as well as interface with Stan/Eval and Training offices. Ensure that all DoD IS cybersecurity related documentation is current and accessible to properly authorized individuals. U.S. Air Force Reserve - Travis AFB, CA June 2017 - Present

Client Systems Technician Applied information security principles, methods, and security products to maintain the confidentiality, integrity and availability of information system resources and information processed through the system's life cycle. Established, published, and maintained base-wide policies to manage the Computer Security program. Utilized current multi-level security products collectively to provide information integrity, confidentiality, authentication and non-repudiation. Implemented and advised on IT security policies and procedures to ensure protection of information transmitted within and outside of the organizational network.
