INFRASTRUCTURE ARCHITECT/INFRASTRUCTURE TEAM LEAD Experienced Information
Technology Infrastructure Engineer/Architect King William, VA I have 15+ years of Information
Technology experience, with 10+ years of data center engineering/architecture focus. Having spent
my entire professional career in a service provider role consulting directly with customers across
many industries (medical, legal, finance, insurance, construction, manufacturing, etc.,). I have
extensive experience evaluating diverse technology environments and guiding improvements to
efficiently maximize business value. I have had success leading customer relationships through
large projects and acting as a senior technical liaison, bridging communications between clients and
engineering teams. Authorized to work in the US for any employer Work Experience LEAD
