 Developer Penn Foster College - Scranton, PA April 2015 to February 2019 Upon joining the Penn
 Foster family, I was initially hired as a UX/UI developer and tasked with developing front- end coding
 standards and implementing the company's very first in-house developed architecture. Within a
 year, I successfully setup front- end framework relying on jQuery, Foundation, and a self-developed
 custom JavaScript API and installed this framework over our company's Business to Consumer,
 Business to Business, and International sites. I was then promoted to UX/UI Manager, and had
 served at that position for the following 3 years. During this time, I had hired and grown a small team
 of four developers to maintain, and develop with the standards I had set in place. Portfolio:
