DEVELOPER LIFE INSURANCE CORPORATION OF INDIA 1998 to 2001 Education Bachelor's Skills ORACLE, SQL, SYBASE, Git, POWERBUILDER Additional Information Dear Hiring Manager, This email is in regards to my interest in applying for the suitable IT position at your Organization. With my skill-set and competencies I am more than able to perform Programmer/ Developer/Data Analyst responsibilities within industry sectors such as Auto, Healthcare, retail, finance, insurance. While working with some of the major companies, I have developed skills in various different IT processes, data governance, database reports and data management/security. This knowledge has enabled me to operate in Windows and Linux platforms and master multiple ETL and Data Analysis principles. I started my career as a Programmer Intern 20 years ago. Working under the direction of senior members, I monitored the overall SDLC of the system and investigated likely loopholes. Later, I gained an opportunity to mentor, lead teams while working in a Datacenter environment, improve existing documentation systems and implement stringent measures to improve the overall application systems. My last assignment was with The Advisory Board Company (currently known as UnitedHealth Group) from November 2012 - June 2017 as Data Services Analyst. My position was one of the 220 positions eliminated as part Optum s acquisition of Healthcare Division of The Advisory Board during year 2017. Due to personal obligations and family hardships I remained on a break after Advisory Board, and I am now interested in seeking suitable opportunities that can help utilize my skills and expertise that I have earned over the years. I am confident that given a chance I can be a great asset to your company by contributing best of my knowledge, skills and experience that can further strengthen my technical acumen. I have attached my resume highlighting my academic and professional skills and look forward to hearing from you in due course. Yours sincerely Aparajitha Duvvuru 3749 Arbor Pointe Dr Newburgh, IN 47630 T: 847-918-1887 E: aparajitha7917@gmail.com SKILLS Oracle 12c/11g (SQL/PL-SQL), Unix Shell Scripting, Informatica 9.x Power Center, EDI, 835/837, Toad/SQL Developer, PowerBuilder 12.x (Classic) /10.5, SubVersion, WinSCP, Putty, Salesforce, GIT, JIRA, Citrix Xenapp, Microsoft Team Foundation Server, Sybase/ Sybase SQL Anywhere,
