

Front-end Developer Front-end Developer Front-end Developer - Lavu Albuquerque, NM A front-end developer with 3 years of experience in the web development industry. An adaptable professional who specializes in UI prototyping and development, creating asynchronous web applications, and team collaboration. A passionate developer with an interest in new technologies, frameworks, and learning new solutions to existing problems. Authorized to work in the US for any employer

Work Experience

Front-end Developer Lavu - Albuquerque, NM April 2017 to Present

- Refactored code to be maintainable, extendable, and significantly faster to develop
- Utilized Slack and JIRA to collaborate with team members both locally and internationally
- Mentored team members on industry best practices for code development
- Implemented unit testing using Jest to help ensure code stability
- Implemented style guides and code formatters to normalize code structures between team members

Front-end Developer Solutionhead Technologies - Albuquerque, NM March 2015 to January 2017

- Designed and implemented workflows for clients to interact with company logistics
- Worked exclusively in a remote environment, using modern communication tools to aid in collaboration
- Improved code structure, making it more maintainable and stable through refactoring and the implementation of style guides
- Helped develop a more rapid prototyping process to gauge client interest
- Utilized RESTful API calls to enable dynamic and performant UIs
