Achievement Highlights Site Optimization Migrations Webmaster/Web Marketing Specialist nVent Hoffman (Pentair) December 2015 to August 2018 While working at InVent Hoffman (Pentair) I had the opportunity to create and design elements for the site while helping to implement SEO and Content Updates. I have also gotten the chance to do some image splicing and creating pages from designs. Skills: Html, CSS, WebSphere Commerce, Photoshop Achievement Highlights Creative solutions for unique problems UX Designer/ Developer/Engineer TSI February 2017 to July 2017 I was brought on at TSI to help prototype the UI's of a two of their production devices. The company had decided to move from a C, C++ Developer stack to a html/CSS/JavaScript UI to help update the look and extend a few features of the products. I was provided with the design comps and software requirement documents to get started. While working closely with marketing and hardware engineers I designed and developed the html/CSS/JavaScript the software engineers used to interface their code with for the new Touch User Interfaces. Skills: VCODE, UX/UI Design Development, Material Design, Git, hands on hardware troubleshooting Achievement Highlights Specialized Human-Machine Interaction Device Troubleshooting Digital production / Jr. FTE / Migration Specialist Allianz Life August 2016 to December 2016 While working at Allianz I was afforded the opportunity to update and create content within their Sitecore environment. I was also very lucky to have had a chance to get some experience working with Gulp and Source Tree and learning the foundations of atomic design and SASS. I was also brought on for a site migration from a legacy platform to Sitecore. Skills: SCSS, Atomic Design, Sitecore, Gulp, Git Achievement Highlights Added corporate component to the pattern library Helped finish long-standing projects Web Specialist/ Developer University of Minnesota June 2014 to June 2014 While working at the

University of Minnesota I was involved in all the content updates to the School of Public Health's various WordPress websites. I also helped to add functionality to the site and helped with the planning and implementation of the School's site redesign. Skills: Html, CSS, WordPress, Photoshop

Achievement Highlights Automated Syllabi linking Re-styled instructor section

Implemented Tag Manager Web Content Developer 3M April 2011 to February 2012 When I started at 3M I worked on site replications. A site replication is copying the template of a site and replacing its content with the content of another language or region. I worked on site replications for Scotch-Brite and Post-it Latin America and a Commercial Graphics website for Europe. Then I started working on site maintenance that included everything from changing out images and other promotional content to creating new pages within an existing site. I had also gotten to work on some XSLTs, theme/CSS updates and page redesigns from wire-frames. Skills: HTML, CSS, jQuery, Photoshop, XML, IBM Websphere

Achievement Highlights XSLT/XML Site replications for major brands

Web Designer/ Front- end Developer MOCON March 2010 to April 2011 While working for MOCON Inc I worked on the company website on a design and development basis. I was involved in everything from adding product and informational pages to updating sections of the website and working with existing code. I also spent a fair amount of time working with graphics and images in Adobe Photoshop and Illustrator and developing the MailChimp emails for our newsletters. Skills: HTML, CSS, jQuery, Photoshop, XML

Achievement Highlights Website UI Changes Designed/Developed Satellite Sites

Education Associates Degree in Information Technology Web Programmer/Analyst Wisconsin Indianhead Technical College January 2007 to December 2009 Skills FRONT-END, Git, JAVASCRIPT, PHP, XML, HTML 5, CSS, UI/UX
