

Web Application Developer Web Application Developer Independent Consultant - Web Development/ JavaScript, E-Commerce, IT San Diego, CA I am a strongly educated, versatile, self taught, and extremely motivated JavaScript & PHP focused Full-Stack developer with many years of personal experience creating dynamic interactive web applications. I am proficient in the following, but not limited to: JavaScript, PHP using MVC frameworks with working knowledge of jquery, angularjs, css3 and html5. I adhere to coding standards to create extensible and scalable code. My knowledge goes beyond programming as I have over 10 years experience owning and operating my own business, creating websites for brands I've created and manufactured (OEM). I also have a considerable amount of experience in product management on e-commerce platforms.
