

Oracle Database Administrator Oracle Database Administrator Oracle Database Administrator -
APEX CONSOLIDATED NETWORK INC Windsor Mill, MD Installation, Upgrading and Managing
Oracle 10g, 11g and 12c Databases Oracle Performance Tuning using AWR, ADDM, and ASH
Shell Scripting Experienced in client SQL optimizations and Oracle memory tuning Experience
performing backup and recovery using the Oracle RMAN, and Datapump Export utilities
Experience migrating databases from environment to environment as well as within same
environment using datapump Export, Import, RMAN and SQL Loader utilities. Experience in
database user security design and policies enforcement through roles, resource profiles, usage
audits, among others Knowledge in Oracle data guard technologies Experienced in automating
database creation through Oracle response files Frequently use Oracle Enterprise Manager Grid
for database monitoring and some administration work Resolves remedy tickets and customer
requests Patch management - Quarterly PSU patch Frequently use performance tuning
techniques like partitioning, indexing tablespace compression techniques Experience in managing
and monitoring databases using Oracle Enterprise Manager (OEM) Authorized to work in the US for
any employer Work Experience Oracle Database Administrator APEX CONSOLIDATED NETWORK
INC - Randallstown, MD October 2015 to June 2017 Installs, creates, upgrades, and manages
Oracle 10g, 11g and 12c Databases on all Linux environments. Maintains high availability and
disaster recovery using Oracle Data Guard and Real Application Clusters (2-Node RAC). Member
of a team that deployed, and implemented Oracle 11g databases that were supported with the use
of Real Application Clusters (RAC) Applies Oracle Critical Patch Update (CPU), Patch Set
Updates (PSU), one-off patches and Bug fixes when applicable to ensure a stable and robust
Oracle environment Creates Oracle database instances using DBCA to conform to Oracle's OFA
standards Creates tablespaces, manage storage allocations by adding datafiles, create redo log
files to reduce I/O from frequent checkpoints to achieve optimal performance for transactions, etc.
Creates and modifies shell scripts to perform daily, weekly, and monthly jobs such as RMAN
backups. Performs database performance tuning activities using tools like Automatic Workload
Repository (AWR), Automatic Database Diagnostic Monitor (ADDM), Active Session History (ASH)

and SQL tuning advisors Uses Oracle Enterprise Manager (OEM) as an interface to manage the Oracle databases Deploys database scripts on both production and non-production environments Ensures that daily cold and hot RMAN backups are successfully made and valid for restore and recovery Monitors alert log and trace files for errors Creates users, roles, and administers passwords, privileges and profiles Refreshes development database from production using datapump export and import. Work as part of a project team to coordinate database development and determine project scope and limitations. Work as part of a project team to coordinate database development and determine project scope and limitations. Fuchs North America - Owings Mills, MD Associate Tech 09/2007 to 08/2011 Compare data with source documents, or re-enter data in verification format to detect errors. Store completed documents in appropriate locations. Locate and correct data entry errors, or report them to supervisors. Maintain logs of activities and completed work. Load machines with required input or output media such as paper, cards, disks, tape or Braille media. Run reports ADMINISTRATIVE CLERK NIERMANN WEEKS - Millersville, MD August 2005 to July 2007 Use computers for various applications, such as database management or word processing. Perform payroll functions, such as maintaining timekeeping information and processing and submitting payroll. Create, maintain, and enter information into databases. Set up and manage paper or electronic filing systems, recording information, updating paperwork, or maintaining documents, such as attendance records, correspondence, or other material. Operate office equipment, such as fax machines, copiers, or phone systems and arrange for repairs when equipment malfunctions. Complete forms in accordance with company procedures. MINISTRY OF ENERGY - Accra, Ghana ASSOCIATE PROGRAM OFFICER Create, maintain, and enter information into databases. Use computers for various applications, such as database management, word processing, Microsoft Excel and Microsoft Access. Operate office equipment, such as fax machines, copiers, or phone systems and arrange for repairs when equipment malfunctions. Locate and attach appropriate files to incoming correspondence requiring replies. Material and Cost Estimate for projects Material reconciliations at the completion of projects using QuickBooks Education Bachelor of Science in

ELECTRICAL AND ELECTRONIC ENGINEERING Kwame Nkrumah University of Science and
Technology Certifications/Licenses OCP January 2018 to Present Oracle certified Professional OCA
November 2017 to Present Oracle certified Associate Additional Information Technical Skills
Oracle Recovery Manager (RMAN) AWR, ADDM & ASH for tuning GNU/Linux OS - Red Hat /
Solaris SQL Loader Datapump Export/Import Knowledge of 2-Node RAC Knowledge of
Dataguard Automatic Storage Management (ASM) SQL Developer Shell Scripting Database
