

Developer Developer Austin, TX 4+ Years of Professional experience in the developing User Interface (UI) Applications and professional web applications using HTML/5, CSS/3, JavaScript, AngularJS, jQuery, Handlebars, Dojo, AJAX and JSON. Good understanding on latest approaches in HTML5/CSS3 development, JavaScript frameworks, jQuery. Knowledge of Responsive web design to improve user experience when viewed on different size electronic devices. Hands of experience on Handlebars templating, Dojo, Node.js, ExpressJS and MongoDB. Expert in HTML5/CSS3 development and have experience in AngularJS and Responsive design. Profound experience with AngularJS MVC framework including authoring complex directives, services, controllers and filters; working with animations, routing and states. Extensively used AngularJS routes and Expressions. Extensively used REST/HTTP APIs, to get the JSON data in the models and used it build the dynamic views. Can be able to deal with Cross Browser issues very effectively and work on almost every web Browsers Safari, Internet Explorer, Mozilla Firefox and Google Chrome. Good Working Experience and understanding with Firebug for Mozilla and IE Developer Toolbar for Internet Explorer, Web Inspector for Safari, Developer Toolbar for Chrome. Experience using all popular text-Editors like WebStorm, IBM RAD, Sublime Text, and Notepad++. Excellent interpersonal abilities, communication skills, time management and team skills and strive hard to attain project goals inside assigned deadlines. Ready to adopt any front- end development technologies with a keen awareness of new industry developments and the evolution of programming solutions. Possess good team-management, leadership qualities and Good Team performer. Experience in attending scrum meetings that involved teams from various phases of Agile. Work Experience Developer Health and Human Services Commission - Austin, TX November 2016 to Present Project: TIERS Responsibilities: Developed application level code to perform client side validation using jQuery and JavaScript. Fixed Functionality and Responsiveness defects in multiple WebPages. Developed AngularJS functionality while implementing various UI Screens across the whole web application (both consumer facing as well as internal application). Wrote angular controller, directives, filters and services to integrate REST services. Designed and executed unit test case scenarios to validate WebPages and UI data fields

in ALM. Performed quality assurance audits and resolved ADA issues using JAWS tool.

Researched and developed POC for data visualization screen using amCharts. Generated JavaScript API documentation for custom build framework using JsDocs3. Developed KitchenSink web pages to demonstrate the usage of custom build framework using DocumentJS. Migrated Glyphicons to accommodate Glyphicons with bootstrap4. Connected and fetched data from database while migrating Crystal Reports to Python Reports. Optimized PL/SQL queries to improve the performance of the reports. Restructured and optimized Batch jobs to improve the performance. Closely worked with client engagements.

Front- End UI Developer Health and Human Services Commission - Austin, TX February 2016 to October 2016 Project: YTB

Responsibilities: Using AngularJS, Handlebars, jQuery, JavaScript and Bootstrap to build custom user interactive (UI) framework. Designed the front- end applications, UI web pages using web technologies custom UITAG(in JSP templates), SCSS, CSS and custom UI framework. Created and enhanced features of custom components in UI framework level using Handlebars template, JavaScript and jQuery. Migrated Dojo based functionalities to JavaScript/jQuery functions. Wrote application level code to perform client side validation using jQuery and JavaScript. Wrote jQuery function while implementing various UI Screens across the whole web application (both consumer facing as well as internal application). Created cross-browser compatible and standards-compliant SCSS-based page layouts. Restructuring existing Java code to achieve framework standards. Designed and executed unit test case scenarios to validate WebPages and UI data fields in ALM. Using IBM Rational Application Developer tool to develop and modify files. Using IBM Rational ClearCase version control to manages files, directories, and other development assets across the lifecycle. Daily tasks will include 40% on analysis and design, 40% on development, 10% on testing and remainder on documentation.

Front End Web Developer Chennai, Tamil Nadu September 2012 to July 2013 Responsibilities: Created interactive navigation lists using list elements in HTML5. Implemented client side validations in registration forms, login and logout forms using JavaScript. Used Twitter Bootstrap Framework, Responsive design. Developed the Front End User Interface using HTML5, JavaScript, jQuery and CSS. Extensively used jQuery,

JSON, AJAX and DOM scripting to create interactive web applications. Worked with jQuery widgets to create more interactive web pages. GIT was used and version control and all the work was submitted using pull requests. Actively participated in meetings with clients to determine website goals and develop strategies. Front End Web Developer (Intern) M/S. AN Power Engineering (P) Ltd - Chennai, Tamil Nadu May 2011 to July 2011 Responsibilities: Worked in a team for building a web app that serves as a platform for Research scholars to showcase their work.

Designed and developed the front end to be responsive using HTML and CSS. Education Masters in Electrical and Computer Engineering New York Institute of Technology May 2015 Bachelors in Electronics & Communication Engineering Manipal Institute of Technology May 2012 Diploma in Electronics & Communication Engineering Govt. Polytechnic May 2009 Skills Ajax (4 years), Android (Less than 1 year), Angularjs (3 years), Bootstrap (3 years), Bugzilla (Less than 1 year), Clearcase (Less than 1 year), Css (4 years), Dojo (Less than 1 year), Frameworks (3 years), Git (Less than 1 year), Html5. (4 years), Java (1 year), Javascript. (4 years), Jaws (2 years), jquery (4 years), Pl/sql (2 years), Python (2 years), Sql (2 years), version control (4 years), Javascript (4 years), HTML (4 years) Certifications/Licenses Driver's License Additional Information TECHNICAL SKILLS Web Technologies/ AngularJS, React, Angular, Flutter, Bootstrap, Responsive Web Design, HTML/HTML5, JavaScript, jQuery, Handlebars, Dojo, NodeJS, Frameworks/Libraries ExpressJS, MongoDB, SASS/SCSS, CSS/CSS3, AJAX, WCAG 2.0, Amcharts, JSdocs3, DocumentJs, Typeahead search, NPM, Bower, Grunt, Gulp IDE's and Tools Webstrom, SublimeText, Atom, Visual Studio Code, Notepad++, IBM RAD, PyCharm, Android Studio, Chrome-Developer-Tools, JAWS (Screen reader) Debugging Tools W3C validator, Chrome Inspector, Firebug, BugZilla, ColorZilla, Responsive Inspector, Postman, ng-inspector for AngularJS Other Tools JIRA, HP Application Lifecycle Management(ALM), Project and Portfolio Management(PPM) Languages JavaScript, Java, Python, Dart, PL/SQL Version Control Git, IBM ClearCase
