Digital River - Aliso Viejo, CA December 2014 to October 2018 Front- End Web Developer Microsoft Team Worked with multiple teams in a scrum project management environment. Web Dev ( front- end), Dev (back- end), Loc (dynamic resource), QA (quality testing), Marketing/Design, and PM (project Manager). Position Profile: Responsibilities include analyzing business requirements to design, engineer, and create website solutions. Development and testing of new features, bugs, and continuous optimization of performance and quality of code. Maintain high quality documentation of design plans, test plans, build and release plans. Experience working in cross-functional team with an agile project management structure. Built responsive websites. Mobile/phone size to desktop and everything in-between. Used CSS media break points Javascript to read display sizes. Bootstrap grid system. Involved in UI and UX designing of Digital River site. Making sure our eCommerce site would have a smooth painless flow to it as well as creating an experience that would wow the user. UI and UX, needed to design on a global scale. Used third-party application files to create a more user friendly drop-down as well as credit card purchasing interface. All Code written would undergo a peer review and unit testing. Unit testing would consist of all scenarios related to the current task at hand. Our unit test would cover 147

countries and their dialect spoken/written as well as LTR (left to right) and/or RTL (right to left) styling of website      Websites Built & Maintained:      Microsoft Home Use Program (HUP) <https://www.microsofthup.com>      Microsoft HUP Administration <https://mydbo.microsofthup.com> (Administrator Center is closed as of January 31, 2019.)      Microsoft HUP Marketing <https://marketing.microsofthup.com>      Microsoft Store <https://www.microsoft.com/en-us/store/>

Accomplishments: 100% Successful Deployment. Tasks complete for release 100% on time. Three consecutive years of outstanding performance reviews. Team of the Quarter Q4 2015, 2016.
