

Database Developer Database Developer Senior Database Administrator Colorado Springs, CO
Outstanding expertise in data mirroring, log shipping, performance tuning, query optimization, and ensuring rigorous data integrity in machine-critical and high-volume Terabyte database environments Proficiency with SSRS (SQL Server Reporting Services), SSIS (SQL Server Integration Services), and SSAS (SQL Server Analysis Services) Constantly focus on optimizing application performance, reliability, security, and usability Expert at creating triggers, objects, views, stored procedures, and databases using T-SQL and PowerShell Solid ability to extract, manipulate, and analyze complex data to generate detailed reports Efficiently balance competing demands, resolve technical challenges, and master new technologies Authorized to work in the US for any employer Work Experience Database Developer Wipro Limited - Englewood, CO June 2019 to Present Create Stored Procedures, Functions and Triggers for Work Orders Fulfillment Group. Work on User Stories on two week sprint cycle and deploy database development objects to Production. Software Developer III CenturyLink September 2017 to September 2018 Performed ETL operations using SSIS packages Created Fact and Dimension tables for Level3 and CenturyLink corporate data warehouse after merger Created SSRS reports for Business Stakeholders Migrated data from Oracle, Excel and SQL Server to SQL Server 2016 database using SSIS and SQL Server Migration Assistant for Access Utilized Visual Studio 2012 and 2015 to create SSIS Packages for Amo Planning, ARMS and AWACS databases Used SourceTree and Git to perform source version control. Migrated Otter database from Access 2012 to SQL Server 2016 Used Excel to perform business model for the Otter 2.0 project and load data into it Created data model using Excel and load data for Otter 2.0 project Database Administrator Summit Utilities, Inc January 2015 to July 2017 Was one of the three employees to perform the cutover from UMS ERP to Cayenta ERP. Employed SolarWinds to investigate performance issues with SQL Server databases. Spearhead upgrade of SQL Server 2008 to SQL Server 2008 R2. Migrated non-production databases to separate server. Installed SQL Server 2014 for engineering group GIS database. Tuned GIS database at server level and database level. Worked with ESRI software for tickets. Performed thorough database disaster recovery testing via Abtech and

AppAssure tools Configured replication for GIS Architected Natural Gas Pressure Modeling system using DNVGL and Oracle 11g software. SQL Database Administrator City and County of Denver September 2014 to January 2015 Partnered with project manager and business analyst to seamlessly migrate 12 DTS packages (written in Sybase SQL Anywhere and SQL Server 2000) to SQL Server 2012 SSIS packages for Denver Police Department's TeleStaff ERP system SQL Database Administrator City and County of Denver March 2014 to July 2014 Collaboratively migrated data from Hatrack systems for Sheriff's Office (Criminal Justice Information Systems) to Atlas (Emerald City ERP system) running on SQL Server 2008 R2 Exclusively supported and maintained SQL Server 2005, 2008, 2008 R2, and SQL 2012 Governed capacity planning in conjunction with Infrastructure group, and maintained enterprise production SQL server environments including MS SQL failover clusters and replication Joined forces with Integration, Reporting, and Operations teams to plan and execute new initiatives Closely monitored performance of SQL Server to collect custom metrics, and advised senior management in continuous improvement where applicable Database Administrator Comcast December 2013 to January 2014 Successfully led MySQL Server database migration project from installation and configuration, through data migration and performance tuning Demonstrated proficiency in database design, security model design, and database server architecture Database Administrator MI-JACK November 2013 to December 2013 Supported MI-JACK performance tuning initiative for their database running on DB2 UDB. Also supported migration to SQL Server 2012 Database Administrator T Systems June 2013 to August 2013 Migrated SQL Server 2008 R2/SQL Server 2012, MySQL and DB2 UDB databases to TSYS cloud for global client (DHL) and efficiently transferred DHL's databases to T-System data center System Administrator AirMethods June 2012 to December 2012 Supported RAMCO ERP (Aviation Module) running on SQL Server 2005, SQL Server 2008 R2 and SQL 2012, as well as pilot 411 system on Oracle 11g Applied patches to SQL Server and performed back-up and restore of training and pre-production environment to ensure rigorous business continuity Database Administrator / Developer Mercury Payment Systems April 2012 to June 2012 Methodically performed database migrations requiring daily participation in

Scrum meetings, cohesive relationships with team members, and precise technical documentation

Project Lead / Database Administrator First Data February 2011 to February 2012 Supported and effectively optimized SQL Server databases at geographically-dispersed data centers running on SQL 2005, SQL 2008, and SQL 2008 R2 Employed sound leadership skills to direct development of reports using BIDS in SSRS Functioned as SME for SQL Server databases spanning two data centers Installed service packs and patches, created cubes via SSAS, upgraded SQL Server 2005 to SQL 2008 and subsequently to SQL 2008 R2, and performed security hardening of servers as needed Database Advisor FedEx January 2011 to February 2011 Project-managed the complete spectrum of program development via Agile methodology and involving Oracle, SQL Server, and Business Objects software Database Administrator OnTargetJobs, Inc May 2010 to November 2010

Supported online job boards for Medhunter, Baybio, Regional Help Wanted, and Hcareers.com

Implemented SQL logins, roles, and authentication modes which aligned with defined security policies Education Certificate in Business Analytics University of Illinois at Urbana-Champaign - Urbana-Champaign, IL May 2019 Bachelor of Science in Civil Engineering Patna University - Patna, Bihar June 1986 to December 1989 Certificate in Managing organization Univ Of Illinois at Urbana for the iMBA program - Urbana, IL Skills AIX (Less than 1 year), AWS (Less than 1 year), Business Intelligence (Less than 1 year), Cisco (Less than 1 year), Data warehousing (Less than 1 year), Database (6 years), Dos (Less than 1 year), i3 (Less than 1 year), LINUX (Less than 1 year), MICROSOFT ACCESS (Less than 1 year), MICROSOFT WINDOWS (Less than 1 year), MS Access (Less than 1 year), MS SQL Server (6 years), OLAP (Less than 1 year), Oracle (1 year), R2 (4 years), SAP (4 years), SolarWinds (2 years), SQL (6 years), SQL Server (6 years), DBA, DB2, MYSQL, Sql Db, Oracle Db, ETL, Postgresql, Ssis, Oracle Database, Sql Database, ETL, Ssis, Postgresql, Rman Certifications/Licenses ITIL Certification January 2015 to Present Certified ScrumMaster (CSM) March 2013 to March 2019 Additional Information Technical Skills Operating Systems: Windows Vista, XP, Windows 95/98, Windows NT 4.0, Windows 2000/2003/2008, Dos, UNIX, AIX, Solaris 2.x/7 and LINUX; Database: MSSQL 2000/2005/2008/2008 R2/2012/2014/2016, MS Access, MySQL 4.x/5.1/5.5/5.6, Oracle 9i/10g/11g/12c, DB2/UDB, SSAS, MDX, DAX, OLTP,

OLAP and Data warehousing; Tools: MS SQL Server Management Studio (SSMS), Business Intelligence Development Studio (BIDS), SQL Profiler, PostgreSQL, VISIO, Enterprise Manager, SSMS, i3-Precise, Idera Admin toolset, SolarWinds, Microsoft Azure, Amazon AWS, Tableau; Hardware: Compaq, Dell and HP servers/desktops, laptops, Cisco routers, SUNSPARC
