

DATABASE ADMINISTRATOR DATABASE ADMINISTRATOR DATABASE ADMINISTRATOR -
Nalley Atlanta, GA Detail oriented and result driven Database Administration professional with 5
years of hands on MS SQL knowledge. Work Experience DATABASE ADMINISTRATOR Nalley -
Union City, GA 2017 to Present Worked on migration from SQL Server 2008 to SQL Server 2014.
Proficient with SQL Enterprise Manager, SQL Query Analyzer, scheduling jobs with SQL Server
Agent, and SQL Profiler. Communicated problems and issues to business owners and
management. Verify backups and error logs on the servers and troubleshoot any failures or alerts,
open trouble tickets if necessary to work with technicians from other departments. Work with end
users to define, implement, and maintain their reporting requirements. Disaster Recovery, stored
procedures and triggers. Designed the backups and recovery strategies for SQL Server databases
to meet our clients' requirements. potential clients on the internet and get traffic for the dealership.
Managed and Implemented high availability on the various servers using Replication. Monitored
the complete environment for resource utilizations and to avoid any bottlenecks. Configured data
transformation services and Bulk Loads with SSIS and BULK INSERT ETL operations
Responsible for fine tuning of the database, troubleshooting, user administration, memory
management, and running DBCC (Rebuilding Indexes and fine tuning Stored Procedures). Tuned
various SQL Server databases for better performance. Configured and setup table compression in
multiply production environments to improve performance. Setup and configured automated
deployment via TeamCity and Octopus. Upgraded SSIS packages from 2008/2008R2 to 2012 and
2012 to 2014. Previewed SQL Server 2016 High Availability features such as AlwaysON.
Created and maintained various logins and managed security based on the required access. 24 X
7 Production Database on Call Support SQL- DBA AutoNation - Atlanta, GA 2015 to 2017
Performance Tuning and Optimization. Troubleshooting and Problem Solving Microsoft SQL
Server Issues. Designed and maintained project databases using SQL Server 2008 & 2012;
ensured accuracy of information and automated numerous functions. Managed 20+ SQL Servers,
from 200GB servers to a 2 terabyte. Configuring, administering and maintaining Database
Mirroring. Performance monitoring and tuning by implementing efficient schemas, Optimizing

queries, Tuning indexes and Database Consistency Checks using DBCC Utilities. Experience in database backups/restoration and recovery of NT server/SQL Servers and Upgrades. Estimated disk storage requirements for database software, database files & database administration needs. Participated in meetings impacting databases physical design. Database recoveries as per requirements. Escalated database issues to appropriate approvers (if applicable). Proven ability to handle Database of more than 1TB in Size. Successful data center migration of multiple production databases SQL 2008/2012. Extensively used tools like SQL Profiler, Index Tuning Wizard, and Database Engine tuning wizard. Third party tools - RedGate-monitoring, Idera backup tool-LiteSpeed. Very good communication skills, good interpersonal skills & desire to excel, fast learner, hardworking and a versatile team player. JUNIOR DATABASE ADMINISTRATOR Pacific System, INC - McDonough, GA 2014 to 2015 Worked with other DBAs to manage, monitor, and tune database servers. Performed upgrades and installations after hours.

Provided support for team, nightly ETL process. Reported failures during scheduled runs. Secure MS SQL databases. Assist in OS security. Education Business Management & Information Technology CAPELLA UNIVERSITY 2014 to Present MBA in Human Resource Management AMERICAN INTERNATIONAL UNIVERSITY 2005 BA in Political Science INDIANA UNIVERSITY 2002 Skills DATABASE (5 years), DATABASES (5 years), SQL (5 years), MS SQL SERVER (4 years), SQL SERVER (4 years), SECURITY (3 years), DISASTER RECOVERY (2 years), REPLICATION (2 years), DATABASE ADMINISTRATION (2 years), PERFORMANCE TUNING (2 years), PROBLEM SOLVING (2 years), BACKUP/RECOVERY (Less than 1 year), CAPACITY PLANNING (Less than 1 year), CLUSTERING (Less than 1 year), MAINTENANCE (Less than 1 year), SWITCH CAPACITY (Less than 1 year), WINDOWS SERVER 2008 (Less than 1 year) Additional Information SKILLS/HIGHLIGHTS ? Backup and Recovery ? Failover Cluster Manager ? Transactional Replication ? Support Work ? High Availability ? Always On Database Tuning Advisor ? Disaster Recovery Performance Tuning. On demand support. Maintain failover clustering. Knowledge of Scaled Agile Framework (SAFE). SQL server in a clustered environment. Maintenance and tuning of small to very large databases. Troubleshooting and

Problem solving SQL server database issues. Administration of SQL Server Database Security environments using Profiles, database. Ensuring the technical integrity of corporate databases by protecting against the loss or misuse of information, and designating backup/recovery strategies. Database administration including installation, configuration, upgrades, capacity planning, performance tuning, backup and recovery in managing clusters of SQL servers. TECHNICAL SKILLS; Windows Server 2008/2008R2/2012 SQL Server: 2008, 2008R2, 2012, 2014, 2016 Tools: Redgate SQL Monitor and SQL Compare, Idera, etc. *Technical skills can be expanded as necessary.
