

MD MD MD - Guggenheim Partners Chicago, IL Authorized to work in the US for any employer

Work Experience MD Guggenheim Partners July 2018 to Present Sr.NET Developer

Responsibilities: Participated in requirements gathering and compiled them into design document.

Followed agile methodologies (Scrum) and Test-Driven Development. Implemented MVC architecture. Developed multi-tiered ASP.NET web applications using C#, HTML5, CSS.

Created use case and class diagrams in MS Visio using UML notations. Involved in Discussion Board for Client Interaction for the change requests and follow-ups. Developed middle layer using

C#.Net. Used ADO.NET Entity Framework for data retrieving, querying, storage and data manipulation. Created and consumed Web Services in the services layer. Worked with REST

based services using MVC, WEB API Created WCF service to consume in the middle tier.

Maintained the WPF and Win Forms applications used by the in-house staff Worked with Object Oriented Design Patterns and Object-Oriented Programming concepts Worked with ADO.NET,

LINQ, Entity Framework to integrate the database with the applications Created Joins, Views, functions, stored procedures, indexes and triggers as part of the database programming. Involved

in performance tuning and query optimization. Worked on the helpdesk tickets and resolved by debugging the existing applications Maintenance/Enhancement of Project and handling/fixing bug

on daily basis reported by Help Desk Monitored backend processes like ETLs, report generation, and rule engine processing. Environment: Net Framework 4.0, Visual Studio 2010, C#.NET,

JavaScript, jQuery, Web Services WCF, REST, WEB API, Win Forms, XML, XSD, XSLT, WPF, UML, MS Visio Sr.NET Developer Urban Lending Solutions - CoH LLC - Broomfield, CO May 2016

to June 2018 Urban Lending Solutions (ULS) and its subsidiaries are industry leading providers of customized mortgage services. ULS offers a wide variety of outsourced services to its clients,

including mortgage fulfillment services, home retention solutions, appraisals and valuation services, title and settlement services, document fulfillment, and call center services. Responsibilities:

Implemented the project using Agile Methodology and SCRUM Implementation. Built the new applications using ASP.NET and ASP.NET MVC 3.0/4.0 Razor View Engine Built and Consumed

WCF Services and Web Services. Responsible for setting up the endpoints and bindings for WCF

Services Worked with C#.NET to develop all the layers of the Solution Used LINQ and LINQ to Entities data provider for interacting with the data in the entity framework. Done Unit Tests for the modules developed for Unit Tests. Responsible for development of various GUI Screens using HTML, DHTML, JavaScript Built the plugins in the multi-threading environment Implemented the OOD (Object Oriented Design) patterns like Singleton, DI (Dependency Injection) Created and Consumed with RESTful Services and shared the data using JSON Wrote SQL queries with Joins on multiple tables, Stored Procedures, Functions, Triggers using SQL Server 2008 R2/2012. Used Twitter Bootstrap framework for developing customizable and fully responsive for various screen sizes. Developed Views and aspx pages using java script, J-query, HTML 5, CSS, AJAX and JSON. Publish and maintained web applications in the IIS. Used JavaScript and jQuery for client-side scripting to create highly responsive interfaces for users. Modified complex stored procedures and functions. Wrote SSIS packages in SQL Server. Implemented Ajax Asynchronous and Asynchronous calls. Optimizing, debugging and creating T-SQL stored procedures in SQL 2008 R2/2012. Worked on SQL queries to retrieve data from SQL Server 2008/2012Database. Worked on Query Optimization to improve the performance of Queries. Written SQL Server Integration Services to retrieve and load data between different data sources Writing test plans and assisting with Requirements documents Performed several testing including Unit Testing to fix the bugs and ensure the application error-free. Written Use cases for the solution built Did Code Reviews using TFS Maintained/Debugged and enhanced the existing system using ASP.NET, MVC, C#, SQL Server 2005/2008 applications Environment: ASP.NET, MVC 3.0/4.0, C#, VB.NET, ASP.NET, Classic ASP, ADO.NET Entity Framework, LINQ, Visual Studio.NET 2008/2010, WCF, REST, TFS 2008, T- SQL, XML, JavaScript, JQuery, AJAX, SQL Server 2008, SSIS, IIS, Windows Server 2008, Telerik, Dev Express Software Consultant Experian - Allen, TX April 2014 to May 2016 Responsibilities: Developed multi-tiered ASP.NET MVC web applications using C#, HTML5, CSS. Involved in Discussion Board for Client Interaction for the change requests and follow-ups for the enhancement of application. Used ADO.NET Entity Framework for data retrieving, querying, storage and data manipulation. Worked with REST based

services using MVC, WEB API Worked with Object Oriented Design Patterns and Object-Oriented Programming concepts Worked with ADO.NET, LINQ, Entity Framework to integrate the database with the applications Created Joins, Views, functions, stored procedures, indexes and triggers as part of the database programming. Coordinated directly with users Environment: Net Framework 4.5.2, Visual Studio 2017, C#.NET, JavaScript, jQuery, Knockout, REST, WEB API

Technical Lead Cognizant Technology Solutions - Phoenix, AZ March 2013 to April 2014

Responsibilities:

Participated in requirements gathering and compiled them into design document. Followed agile methodologies (Scrum) and Test-Driven Development. Developed multi-tiered ASP.NET MVC web applications using C#, HTML5, CSS. Involved in Discussion Board for Client Interaction for the change requests and follow-ups. Used ADO.NET Entity Framework for data retrieving, querying, storage and data manipulation. Created and consumed Web Services in the services layer. Worked with REST based services using MVC, WEB API Worked with Object Oriented Design Patterns and Object-Oriented Programming concepts Worked with ADO.NET, LINQ, Entity Framework to integrate the database with the applications Created Joins, Views, functions, stored procedures, indexes and triggers as part of the database programming. Used Dependency Injection Coordinated offshore and onsite teams Created Unit Tests using Moq and Integration test to check the workflow of the application Environment: Net Framework 4.5.2, .Net Core, Visual Studio 2017, C#.NET, JavaScript, jQuery, Web Services, REST, WEB API, Kendo Grid, Autofac, Automapper, Fluent Validation, Moq.

Tortoise Git Software Engineer Beyer Productions - Phoenix, AZ February 2011 to March 2013

Responsibilities:

- ? Participated in all stages of the Software Development Life Cycle.
- ? Solely responsible for entire project.
- ? Designed the architecture of the web application.
- ? Developed the UI using web pages in ASP.NET.
- ? Used server controls in ASP.NET for state management.
- ? Used caching capabilities of ASP.NET server controls.
- ? Developed custom web controls using ASP.NET and C#.NET.
- ? Attended periodical project management meetings.
- ? Participated in project requirement understanding, task scheduling, task allocation and testing.
- ? Responsible for Test case preparation, Unit testing, Integration testing and smoke testing.
- ? Designed and implemented MVC (Model, View and Controller) pattern widely.
- ?

Developed and integrated web services with the application. ? Developed windows services using C#.Net and integrated with the application. ? Created the table design and wrote stored procedures, functions and constraints in SQL Server 2000. ? Responsible for project re-engineering and performance tuning especially in queries. ? Provided Production support. Environment: Microsoft .Net Framework, ASP.NET, ADO.NET, SQL Server 2000, C#.NET, HTML, JavaScript, XML, XSL,SVN with tortoise. Software Engineer ARM INC - San Jose, CA January 2010 to February 2011 Responsibilities: ? Developed the User Interface using Microsoft ASP.Net and VB.Net. ? Used server controls in ASP.NET for state management. ? Used Infragistics data grid for display & other manipulations ? Developed custom Web Controls using ASP.NET and VB.Net. ? Created the table design and wrote stored procedures, functions and constraints in SQL Server 2000. ? Attended periodical project management meetings. ? Participated in project requirement understanding, scheduling, and task allocation and testing. ? Responsible for Test case preparation, Unit testing, Integration testing and smoke testing. ? Developed and integrated web services with the application. Environment: Microsoft .Net Framework, ASP.NET, ADO.NET, SQL Server 2000, VB.NET, HTML, JavaScript, XML, CVS, NANT, NUNIT and Cruise Control. Software Developer Breg Inc - San Diego, CA March 2009 to January 2010 Project #3: Enterprise Resource Planning Package Responsibilities: ? Developed the User Interface using Web Forms using ASP.Net. ? Developed business layers using VB.Net. ? Created the table design and wrote stored procedures, functions and constraints in SQL Server 2000. ? Prepared Test Cases and performed Unit testing. ? Used server controls in ASP.NET for state management. ? Developed custom Web Controls using ASP.NET and VB.Net. ? Responsible for Test case preparation, Unit testing. ? Developed and integrated web services with the application. Environment: Microsoft .Net Framework 1.0, ASP.NET, VB.NET, ADO.NET, SQL Server 2000, MS Access 2000. Project #2: Integrated Business Management System (IBMS) Responsibilities: ? Developed the User Interface using Microsoft VB.Net. ? Responsible for Test case preparation, Unit testing. ? Reports developed in Microsoft Access 2000 and ASP.Net. Environment: Microsoft .Net Framework 1.0, ADO.NET, SQL Server 2000, VB.NET, HTML, JavaScript, XML. Project #1: Purchase and Stores Management

System Programmer Responsibilities: ? Developed the User Interface using WinForms using VB.Net. ? Developed business layers using VB.Net. ? Performed Unit testing. Environment: .Net Framework 1.0, ADO.NET, SQL Server 2000, MS Access 2000, VB.NET. Education Bachelor's Skills .NET (10+ years), ADO (10+ years), ADO.NET (10+ years), AJAX (2 years), ASP (10+ years), ASP.NET (10+ years), C# (8 years), CSS. (6 years), DHTML (2 years), HTML (6 years), JavaScript (10+ years), jQuery (6 years), Microsoft .Net (4 years), MS .NET (4 years), MS ADO (10+ years), MS ASP (10+ years), VB.NET (4 years), Visual Studio (6 years), Web Services (8 years), XML (7 years)
