

ORACLE DATABASE ADMINISTRATOR ORACLE DATABASE ADMINISTRATOR ORACLE DATABASE ADMINISTRATOR - IOWA FOUNDATION FOR MEDICAL CARE Washington, DC

Work Experience ORACLE DATABASE ADMINISTRATOR IOWA FOUNDATION FOR MEDICAL CARE - West Des Moines, IA January 2017 to Present Monitored and tuned long running jobs by working closely with the application development team and analyzing objects, created or rebuilt indexes, query tuning using SQL TRACE, TKPROF, Explain Plan, TOAD. Configures backups using Net backup, monitoring and troubleshooting daily backup failures. Oversees monitoring and performance tuning to ensure database remains healthy on consistent basis. Performed upgrade from 10g to 11g and to 12C using DBUA, and applied Oracle quarterly patches to 11g software. Created user accounts and accorded appropriate privileges. Created database objects. Performed Database replication from production to test/development environment Using RMAN, Data pump utilities and manually. Highly experienced in implementing Oracle's Transportable Tablespaces (TTS) feature using Datapump Export/Import (Oracle 11g, 10g) allowing users to quickly move a user Tablespace across Oracle databases. Performed data refreshes (at database, schema & table level) using RMAN utility and Datapump, conventional Export/Import of Oracle 10g, 11g, 12C to Exadata. Provided 24/7 support and reported to lead DBA. Configured flash Recovery Area. Working Knowledge of E-business suite and Exadata. Creating and restoring databases using Oracle Flashback Technology with Guaranteed restore point. Configured Unidirectional topology of Oracle Golden Gate For real time replication and for business analysis as well. Tuned golden gate replication using Golden gate Software Command interface (GGSCI) tool and checking the golden gate error log for possible replication issues. Installation and configuration of Oracle EBS softwares Upgrade and management of oracle EBS.

ORACLE DATABASE ADMINISTRATOR Fidelity Investments - Durham, NC September 2018 to July 2019 Monitored different databases and application servers using Oracle Enterprise Manager (OEM) 10g Grid Control. Loading data from flat files to database using SQL*Loader, External Tables. Extensively used AWR, ADDM, ASH and explain plan for periodic performance tuning. Implemented Data pump, conventional export/import utility of Oracle 11g, 10g for re-organizing Databases/Schemas/Tables to improve the

performance. Involved in construction of DR sites for all the Production environments. Implemented and managed optimum physical database design (tablespaces, data files, extents, redo logs, archive logs) and assessed database capacity by monitoring online storage, growth and file system space. Provided instance level performance monitoring and tuning for Event Waits, Sessions, Physical and Logical IO and Memory Usage. Extensive experience in RMAN recovery testing, RAC and stand-alone database. Provided support to the project management team by assisting developers tuning the databases. Configured and installed 2 nodes real application clustered for maximum availability and scalability for some of the production databases.

ORACLE DATABASE ADMINISTRATOR EASTERN ILLINOIS UNIVERSITY - Charleston, IL April 2013 to December 2016

Automated monitoring the databases, performance parameters, backup and recovery activities by running Cron jobs and customized various Unix Shell Scripts in sending Email for ORA- errors, reports for Quick Morning Check (QMC), automate routine DBA tasks of taking backups, exports, space usage monitoring, move Archive Logs to different mount point when Archive Destination is full and resync RMAN catalog. Performed upgrade from 10g to 11g using DBUA, and applied Oracle quarterly patches to 11g software. Created user accounts and accorded appropriate privileges. Created database objects. Planned, tested and implemented backup strategy using RMAN, Oracle Utilities (Export/Import) EXPDP and OS methods. Run scripts to check the status of databases such as growing table sizes, extent allocation, free space, used space, fragmentation etc.

RDBMS: Oracle 12c, 11g, and 10g **Tools:** TKPROF, EXPLAIN PLAN, STATSPACK, AWR, and ADDM. **Toad, Putty, NX client, WinScp, Remote Desktop Connection, VNC, Team Viewer, LogMeIn and Cisco VPN Client.** **Database Utilities:** SQL*Plus, Oracle Enterprise Manager, Real Application Cluster, ASM, Transportable Tablespaces, SQL*Loader, RMAN, DataPump, Export, Import.

Education BS in Accounting University of Buea **Skills** Hp-ux, Ux, Red hat, Solaris, Unix, Linux, Sun, Windows 7, Microsoft office Certifications/Licenses Oracle Certified Associate Present Additional Information General Skills: Windows Client (2000 Server, XP, Vista, Windows 7), Windows Server (Server 2003), UNIX (Sun Solaris, HP-UX 11i v2), Linux (Red Hat, Centos), Microsoft Office Suite
