

2nd Lieutenant-Military Intelligence Officer (Transitioning) 2nd Lieutenant-Military Intelligence Officer (Transitioning) 2nd Lieutenant-Military Intelligence Officer (Transitioning) - United States Army National Guard Laurel, MD U.S Army 2ND Lieutenant with Active Secret Security Clearance and 5 years of proven experience in the United States Army National Guard. Managed risk upon multiple lines to protect assets, property, and equipment valued over \$67M while meeting the expectations of senior leadership. Dependable professional interested in Cyber Security job positions with any company that can apply analytical, technical, and innovation skills to support and guard organizations against security breaches while keeping them FISMA/NIST compliant. With my military experiences, I know how to collaborate with people to bring a better result. I am eager to work with a team of analysts, Security Control Assessors, ISSO, stakeholders to defend digital files and electronic infrastructure. Authorized to work in the US for any employer Work Experience 2nd Lieutenant-Military Intelligence Officer (Transitioning) United States Army National Guard - Baltimore, MD March 2019 to Present Lead small, tactical military police units and organizations Supervise the execution of military police Battlefield functions: Maneuver and mobility support operations (reconnaissance and surveillance), Area security operations (site security and response), Law & order operations (law enforcement and developing host-nation police forces), Internment/resettlement operations (military prisoners and enemy combatants), and Police intelligence operations. Supervise company-wide operations and plan training. Supervised teams in support of security and installation law and operations. Scrum Master ECOFarm - Rhode - Island, TX, US April 2016 to Present Coordinated and facilitate daily scrum, backlog grooming, sprint planning, sprint review and sprint retrospective. Guide the team and organization on how to use Agile/Scrum practices and values Supporting and educating the Product Owner on managing and sustaining the backlog up to date and prioritization. Facilitate cross-team dependencies and help eliminate impediments across team. Facilitating discussion, decision making, conflict resolution, and completion of work. Experience with Project Management/Agile responsibilities. Experience with Agile and project manager software like Jira, SharePoint, and Project Online. Supported Product Management organization throughout the entire product lifecycle: from initial customer

discussions through testing and release. Worked with clients and internal stakeholders to evaluate product requests submitted through Free Wheel's Product Forum. As a Scrum master, I have participated and I'm aware of agile ceremonies user story grooming, sprint planning, and sprint retrospective which my team uses constantly. I am able to break the larger epics into smaller user stories, groom user stories and make accurate estimates through story points. I have groomed user stories effectively along with product owners and team players. I have also chosen agile methods and particular sprint durations for many projects.
