

Freelance Web Developer Freelance Web Developer Freelance Web Developer - Supreme Vibez
Radio Deerfield Beach, FL Work Experience Freelance Web Developer Supreme Vibez Radio April
2015 to Present A web app in progress for one of my clients as a full stack developer focused on
building and maintaining the project. Built an API in Node.js for user accounts with JWT, register,
login & password reset. Developed an API in Node.js for user chat, utilizing web sockets
(socket.io) & MongoDB for saving last 100 chat messages. Built a service for getting the current
song, history and radio online status. This service was built with Node.js, socket.io, node-cron,
request & cheerio.Itisona schedule to scrape a web page every 20 seconds and broadcast any
changes through web sockets. Frontend is built with React & Redux. Coin Contrast (Beta) A
web app for a potential startup that wanted a piece of software that gave live cryptocurrency ticker
prices and gave their users the ability to compare and get historical information & chart data on a
coin. Frontend built in React 3rd party RESTful API integration with Redux Live ticker
information utilizes web sockets from another 3rd party API IOS/ Web Developer Buildinghands.io
October 2016 to December 2017 At this startup design agency, I was a Full stack developer and
IOS developer. The technologies that I mostly utilized were Swift, Objective-C, PHP & MYSQL.
Education Civil Engineering w George Fox University 2011 to 2012 Skills Api, Git, Javascript,
Ecmascript 6, Mongoose, PHP, HTML5, Front End, Wordpress Links <https://elijmarshall.com>
