

Web Developer Web Developer Lynnwood, WA Looking to do what I love, and that's building and maintaining software. I'm seeking an agile team where I can contribute, learn through collaboration and improve my craft. My current focus is JavaScript, TypeScript, React and Nodejs, but I also love working with statically typed languages like Java and C#. Work Experience Web Developer PengWin Linux (Open Source Project) May 2019 to Present Actively developing a new website for PengWin Linux, the Linux distribution developed specifically for the Windows Subsystem for Linux. <https://github.com/WhitewaterFoundry/website/tree/development> Technologies Used: React, TypeScript, JavaScript, Gatsbyjs, Nodejs, Jest, GraphQL Document Control Specialist Sound Metrics Corporation - Bellevue, WA May 2013 to July 2019 Started as a full time contractor for mechanical design and drafting, and was hired on after 6 months. I currently control all engineering and production documentation within the company. Notable Accomplishments: Built and currently maintain Excel add-ins using Nodejs, Officejs and TypeScript to automate otherwise time consuming manufacturing document packet creation process. Developed utilities to generate production test reports for products using VBA. Automated the majority of the end of year inventory process of generating count sheets and parsing results for recount and final report using VBA. Collaborated with a team of production technicians, engineers and managers to design and implement standard processes. Created and currently maintain all mechanical assembly work instructions for building assemblies. Education Certificate in Software Development Engineer in Test (SDET) Strategy Computers - Bellevue, WA 2008 to 2010 Skills TypeScript, Javascript (3 years), Reactjs (2 years), Gatsbyjs (Less than 1 year), Nodejs (2 years), Jest (Less than 1 year), Testing, SQL (1 year), GraphQL (Less than 1 year), HTML5, Front End, CSS3 Links <http://kbrock84.com>
