 Multi-tasking Social Worker of the Year, New York Presbyterian Hospital, 2018 & 2019 SKILLS
 SUMMARY Management Managed a client load of sixty individual patients with varying degrees
 of immediate and long-term needs. Successfully organized services both on-site and in the
 community, ensuring ongoing coverage and support, allowing effective communication between
 client and providers. Acted as a preceptor and oriented new employees to company policy and
 procedure. Trained said employee in documentation effectiveness, assessing for appropriate
 referrals and interdisciplinary communication. Data Management Organized and implemented
 Care Coordination Departments shared resource drive, making it easier for the department to share
 information necessary for successful interventions. Instituted a naming convention for all data

contained in shared folders and educated staff to necessity of a correct procedure to guarantee their own ability to find information swiftly. Software Management As a member of the EpicTogether Team, was responsible for assisting software developers in understanding the day to day activities of the Care Coordination Department. Was consulted to review the progress of the Epic's implementation, correcting and editing necessary sections of the program. Provided insights to Corporate Management on ways in which existing programs can be utilized to assist in improving throughput of the hospital.
