

Network Administrator Network Administrator SQL Database Administrator Las Vegas, NV
Knowledge of HTML, Java, Python, C++, Oracle developer. Enjoy Network and Database Servers
especially SQL. Authorized to work in the US for any employer Work Experience Network
Administrator Computer World - Faisalabad March 1985 to December 1991 They hire all in one guy.
So I was not only setting up network but also developing their software. They used to send me to
their clients to troubleshoot network, find the problem and fix it. Then immigrated to USA. One year
worked at Complete Computer Cure in Sherman Oaks, CA. Same responsibilities. Going onsite to
customer's business location, fix network and any other problem they had. For the last 14 years, I
am with Laptop Expert Las Vegas and fulfill same responsibilities. Troubleshooting a network is
always a fun job form me. Data back up, data transfer, install applications. Once the network is up
and running then restore data give them training so, they can handle minor problems. Realistically, I
can work on any windows base network, SQL Server or any other network. I just take 15 minutes
maximum to figure out, how have they setup up their network, then I am ready to rock and roll. I
enjoy my work with more than 30 years of experience from computer repair to software
development, hardware, software, networking, database management, RDMS and much more. I
have knowledge about java, linux and bigdata but don't consider myself guru in this. Education
Bachelor's in Computer Science Punjab University - Lahore August 1980 to August 1984 Bachelor's
in Computer Science Punjab University - Lahore August 1980 to July 1984 Skills Networking,
Technical Support, Windows, SQL Database Administration, Oracle Database Administration,
Vmware, Active Directory, Customer Service, Windows 7, Sql Db, DBA, Sql Server, MYSQL
