

Web Developer/ Front end Web Developer/Front end Web Developer - Manifest Destiny Hampton, VA With 15 years of hands-on experience efficiently coding and designing websites and applications using HTML5,CSS3, PHP, MYSQL, jQuery, and JavaScript. I am confident I will be an excellent addition to your organization.Because of my experience with being a freelance designer/ developer, I've had to be highly responsive, conscientious, self-motivated and acquired experience with detecting and resolving customer needs. I have proven leadership skills, front end web design/development ability. Continued education has allowed me to stay ahead of the curve and deliver exceptional work to each employer I've worked for. I also have an online portfolio of the various websites, applications, and graphic designs I've had the honor of working on. I possess excellent communication skills and can effectively work with clients and colleagues. Other strong points include an ability to work as part of a team or individually, multi-task, prioritize and work to deadlines under pressure. I am seeking a front end developer position within your organization. I hope that I'm granted an opportunity to talk with you in the very near future. Authorized to work in the US for any employer
