Work Experience

Senior Developer Geometric Americas Inc - Houston, TX 2016 to Present

- Built REST Services in Java using Spring JDBC, Spring JPA and Spring boot
- Developed SQL queries, views, functions, and procedures to facilitate back end development
- Implemented spring boot apps using JMS and ActiveMQ
- Followed CI and CD practices with the help of Bamboo server/Jenkins
- Involved in many technical design discussions and provided useful technical inputs on numerous occasions
- Analyzed performance of different standalone/web java applications in Production environments and improved their performance significantly with the help of Java multi-threading concepts, and software design principles
- Worked collaboratively in a team with fellow developers, shared ideas to solve complex as well as challenging problems
- Upheld program quality and delivery standards in developing software solutions

Software Engineer Geometric Americas Inc - Pune, Maharashtra 2012 to 2016

- Implemented back end servlets for MVC based web app development using J2EE technology
- Developed standalone java projects with the help of JDBC to support data migration activities for legacy data
- Designed eclipse RCP based user interface frameworks using Java Properties, design patterns, and object-oriented programming concepts
- Created and executed test cases in JUnit for unit testing of applications
- Built SOA based APIs in C++ to facilitate Product Lifecycle Management solutions
- Worked under the direction of senior programmers in providing appropriate analysis, upgrading, maintenance and documentation support for Java-based systems
- Developed user interface screens using Java SWT/Swing components to customize standalone java applications' front end
- Involved in all phases of Software Development Life Cycle (SDLC) and used Agile methodology for developing applications

Education Bachelor of Engineering in Electronics KJ SOMAIYA COLLEGE OF ENGINEERING - Mumbai, Maharashtra 2012
