SQL, PostgreSQL, Microsoft Office, Github, Express.js, Massive Links <https://github.com/jcpage02>
<http://www.jamesc.page> Certifications/Licenses JavaScript Web Development March 2019 to
Present Students who receive this badge are comfortable working with Javascript to perform basic
logic and algorithmic tasks. They can build full-stack applications using React, Node, Express, and
SQL. Within React they learn components, state, props, Redux, and more. They know REST and
how to build APIs that interact with an SQL database. They have created and hosted live a personal
project. They have worked on a team to create a project as a group and host it live.
