

Oracle Database Administrator Oracle Database Administrator Oracle Database Administrator
Pittsburgh, PA Authorized to work in the US for any employer Work Experience Oracle Database
Administrator Bank Of New York Mellon / Eagle Investment Systems - Pittsburgh, PA 2016 to 2018
Took lead in disaster recovery and business continuity exercises. Upgraded databases to version
12c from 11g and 10g and applied patches as required on Linux server to improve performance
companywide and utilize latest features. Performed Database Refresh from Production to QA,
User Acceptance Testing (UAT) and Development databases. Successfully implemented Backup &
Recovery using RMAN, and user managed backups. Troubleshoot and tuned database
performance issues that reduced time from approximately one hour to under 20 seconds. Took a
lead role in the configuration and support of the Data Guard environment for any disaster recovery
needed. Completed database health-checks, integrity and space management on ASM and file
system storage. Anne Juma 301-658-8576 Oracle Database Administrator Fidelity Investments -
Boston, MA 2013 to 2016 Upgraded and maintained databases. Successfully implemented 11g
RAC on nodes for high availability. Extensively used AWR, ADDM and explain plan for periodic
performance tuning. Implemented Data pump on Oracle 11g for re-organizing Databases,
Schemas, and Tables to improve the performance. Involved in construction of Data Guard sites for
all the Production environments. Implemented and managed optimum physical database design
(tablespaces, datafiles, extents, redo logs, archive logs) and assessed database capacity by
monitoring online storage, growth and file system space. Configured database monitoring utilities
that reduced false alarms to a minimum Developed and modified database backup and recovery
strategies using RMAN. Education Bachelor of Science in International Business Administration
United States International University - Nairobi, KE Skills DATABASE (7 years), ORACLE (7 years),
RMAN (7 years), LINUX (4 years), PERFORMANCE TUNING (3 years) Links
