

Graphic and Web Designer Graphic and Web Designer UX / UI Designer Portland, OR As UX designer, I bring a background of 10 years experience with graphic design and front-end web development. This combination of skills makes me uniquely suited to a smaller company or startup where everyone needs to pitch in where needed. Having recently completed the UX Design course with Career Foundry, I am currently seeking a UX / UI role in Portland, OR, where I can do meaningful, challenging, creative work in a supportive and collaborative environment. My natural empathy and authenticity will help me advocate for the user s needs, while my design sensibilities will translate UX research into compelling visual experiences. Authorized to work in the US for any employer
