

IT Consultant / Business Owner IT Consultant / Business Owner Systems Administrator Overland Park, KS Seeking to build a career as a computer professional with a company that will utilize my skills, experience, and education to make a significant contribution to the growth of your company.

Work Experience IT Consultant / Business Owner TJRCrypto - Overland Park, KS March 2017 to Present I am currently working on a business in Cryptocurrency in development with .NET - VB/C#/ASP and powershell scripts.

Systems Administrator Intouch Solutions - Overland Park, KS November 2015 to August 2017 SysAdmin Pharma Web Hosting Job duties include: Infrastructure support. Worked on a team of 3 SysAdmins supporting 100+ Dev/QA/Staging/Production servers hosting 250+ websites. Most of them were IIS running .Net applications and SQL. We also had some Linux builds with Apache/MySQL. VMWare 5.5/6 environment and storage included EMC, Dell, and Nimble. We also supported the network/VPN site to site to 5 different locations. Network was mostly Cisco and Meraki, and monitored with Solar Winds. We also supported the internal applications including Exchange/Office 365/Lync, Visual Studio, TFS for .Net code repository. I wrote scripts with Powershell, Batch, and VBscript for AD, migrations, and automation.
