

Java/ Python engineer Java/Python engineer Java/ Python engineer - Ciklum Work Experience
Java/ Python engineer Ciklum 2017 to Present Developing server and client-side web applications
Java/ Python technical lead Senior embedded Java/JavaEE/C engineer Intropro LLC 2012 to 2017
Developing software for Directv STB devices stack Developing software for both Linux and
Windows stacks Developing web monitoring systems for STB devices Developing systems for
recording/monitoring/analyzing binary satellite streams Senior JavaScript/PHP/ Python engineer
DEP systems LTD 2010 to 2012 client/server JavaScript core development for SAP ERP system
Identified the new functionality and features. Engaged in process of development from conception
to coding. optimized server and client side scripts for hi-load freelance PHP/Java/JavaScript/
Python/C/C++ Developer 2006 to 2010 Develop and maintain the web applications in premium and
portal service platforms. Developing Java desktop applications Developing rich JavaScript
web2.0 applications Developing desktop C# applications Creating parsers of different content (Python/PHP/Java)
AVR microcontrollers C/Assembler developing Education Bachelor in computer
sciences in programming engineer University of the artificial intelligence 2004 to 2009 Skills AVR (4
years), Java (10+ years), JavaScript (6 years), Linux (5 years), Python (8 years) Links
<https://github.com/shaddyx> Additional Information SKILLS: Strong communication and problem
solving skills. Capable of managing the work with the team. Strong database and programming
skills. advanced in object-oriented development client-server development skills Ability to
grasp the new technologies easily. PROGRAMMING LANGUAGES: ? Java Embedded/Java EE
? Groovy ? Grails ? C/C++ (Mostly for avr microcontrollers) ? Golang ? JavaScript (both
server-side and client) ? Python ? Assembler (X86, AVR) ? Linux/Unix scripting and tools
CONTINUOUS INTEGRATION TOOLS: ? Jenkins ? Gitlab-ci BUILD SYSTEMS: ? Gradle ?
Maven ? Ant ? Make ? CMake ? Scons ? Npm DB SKILLS: ? MYSQL ? MongoDB ? Redis ?
Memcached SCM: ? GIT ? Mercurial DEV-OPS: ? Docker, docker-compose ? Kubernetes
