

Front End Developer Front End Developer Clawson, MI Work Experience Front End Developer
Freelance/Self-Employed - Detroit, MI March 2016 to Present I am a dedicated individual who places high emphasis on continued learning. As the technology fields are ever changing, I make it my mission to stay ahead of the curve and up to date on the latest developments. I work well with a team and can use leadership skills to guide groups as needed. <http://angularapp.bluem.work> - Utilizing the power of Angular, I was able to create an application that allows the user to input data and manipulate the information on the page asynchronously. Using data binding, string interpolation, ngFor loops, and ngIf conditionals this project is a sample of what can be done on larger productions. <http://colorgame.bluem.work> - This is a RGB color guessing game utilizing DOM manipulation which dives into Javascript, styling and animations with CSS, and HTML for clean markup. The user is able to choose between "Easy" and "Hard" modes and decide to choose a new batch of colors if preferred. <http://www.michaelkingmusic.com> - Leveraging SCSS, Bootstrap, and jQuery, this project created a positive user experience tailored to the client's needs. I was able to navigate through multiple edit requests to deliver a final product that the client was happy with. <http://stillsmallvoice.bluem.work> - Created to show the power of vanilla javascript, I put together a simple application that loads random strings stored in an array based on the user input. <http://www.brandonjamesellis.com> - A culmination of my recent projects was put into production to be used as my own personal portfolio. I used jQuery Easing to guide smoothly from navigation links which provides a smooth user experience. This is fully responsive as well thanks to Bootstrap and some media queries to fine tune the project. Education Bachelor of Science Rochester College - Rochester Hills, MI 2009 Skills HTML, JAVASCRIPT, BOOTSTRAP, TYPESCRIPT, PHP, SASS, CSS3, jQuery, Angular, Front End, UI, Front-End Links <http://brandonjamesellis.com> Additional Information Skills PHP, Wordpress, Angular, TypeScript, JavaScript, jQuery, SASS, CSS, Flexbox, Bootstrap, HTML, CLI, SEO
