

Senior Linux Unix Architect Engineer Senior Linux Unix Architect Engineer Senior Linux Unix Architect Engineer Marietta, GA Senior Linux Engineer with 10+ years of strong experience working for varied industries. Strong experience in Senior Linux/UNIX/Windows Server Administration 24X7 supporting 1500+ virtual servers, Putty, Secure CRT, Cygwin Interface Administration, Configure, Monitor, GPFS, NFS, NAS Shares for 100% reliability, Veritas Volume Manager tasks for UNIX/Linux Server Administration, Server Datacenter Migration, and Disaster Recovery planning. Extensive Application / Database Support to include Enterprise wide OS Monitoring and patch management, deployed RedHat version 5,6, Centos via VMware VCenter 5.1.x, ESX, Patch deployment, RPM Package management & distribution, RedHat Local Satellite Server Management & Change Control, RedHat 5,6, CentOS 5, SUSE Linux Senior Server Administration & Maintenance Strong experience working on middleware platforms. Experience creating automated scripts to troubleshoot, and monitor hardware errors of drives, Chef Server 12, Chef Compliance v1, Chef Automate Implementation, Configuration, IBM (ITM 6.2.x) monitoring, client/server implementation and configuration for AIX, RedHat, Oracle, DB2, VMware. Integration with Netcool Version7 suite for network monitoring. Administrated PeopleSoft Server 8.4 & 8.5 including: PeopleSoft Application Servers, Process Scheduler Servers, Tuxedo, Web logic Servers Experience in UNIX/Linux problem resolution for applications managing logfiles (Splunk), configurations, server process management with infrastructure technologies including Tomcat, WebSphere and JBoss. Work Experience Senior Linux Unix Architect Engineer Delta Airlines April 2019 to August 2019 Senior Linux Engineer build/develop/manage Core Production virtual servers RedHat 6.9 & 7.4 Senior level Engineering, Architecture, and Administration AIX 7.1 Production Core Administration Solaris Server Administrator Putty, Secure CRT, Cygwin Interface Administration, vCenter, HMC server management Oversee Datacenter Server Retirement Decommission process Server Patch management process. Automated, and Manual. Document SOP for team. Server Datacenter Migration, and Disaster Recovery planning. Supporting Oracle, DB2, Apache, AWS, WebSphere team needs, and communicating changes with management Verifying & Validating Audit Compliances for all UNIX/Linux environment Hadoop log scrub/control

management and reporting Creating Policy domains, and Admin Schedules based on End-Client retention needs & Plan TSM backups ensuring no overlap Creating automated scripts to troubleshoot, and monitor OS, DB, Application and batch processing Ansible automation playbook Implementation, Configuration Senior Linux Unix Architect Engineer Infinite / Xerox, CHI March 2016 to April 2019 Senior Linux/UNIX/Windows Server Administration 24X7 supporting 1500+ virtual servers. Putty, Secure CRT, Cygwin Interface Administration Configure, Monitor, GPFS, NFS, NAS Shares for 100% reliability. Veritas Volume Manager tasks for UNIX/Linux Server Administration Server Datacenter Migration, and Disaster Recovery planning. Supporting Oracle, and SAP team needs, and communicating changes with management Verifying & Validating SOX Compliances for all UNIX/Linux environment Tivoli storage manager (Linux, UNIX, Windows Client Server Administration) TSM configuration manage, TSM Library manager updates including TSM database and Recovery logs Splunk log scrub/control management and reporting Restore data from offshore volume and remove from storage pool and checkout the volume from library Creating Policy domains, and Admin Schedules based on End-Client retention needs & Plan TSM backups ensuring no overlap Creating automated scripts to troubleshoot, and monitor hardware errors of drives Chef Server 12, Chef Compliance v1, Chef Automate Implementation, Configuration IBM (ITM 6.2.x) monitoring, client/server implementation and configuration for AIX, RedHat, Oracle, DB2, VMware. Integration with Netcool Version7 suite for network monitoring Administrating PeopleSoft Server 8.4 & 8.5 including: PeopleSoft Application Servers, Process Scheduler Servers, Tuxedo, Web logic Servers Lead Linux Cloud/UNIX Systems Engineer Computer Science Corp/ Virtustream /Fiserv/ Cox /TIAA-CREF January 2014 to January 2016 Responsible for Application / Database Support to include Enterprise wide OS Monitoring and patch management Deploying RedHat version 5,6, Centos via VMware VCenter 5.1.x, ESX Patch deployment RPM Package management & distribution RedHat Local Satellite Server Management & Change Control RedHat 5,6, CentOS 5, SUSE Linux Senior Server Administration & Maintenance AIX 6.x - 7.1 Senior Server Administration & Maintenance Solaris 10,11 Mid-Level System Administration and remote support Oracle Enterprise Linux version 6.5, on HP

DL380 G7 running EMC Vplex fast path application Server Linux/UNIX/Windows Server Administration 24X7 supporting 1500+ virtual servers. Putty, Secure CRT, Cygwin Interface Administration Configure, Monitor, GPFS, NFS, NAS Shares for 100% reliability. Veritas Volume Manager tasks for UNIX/Linux Server Administration Server Datacenter Migration, and Disaster Recovery planning. Supporting Oracle, and SAP team needs, and communicating changes with management Verifying & Validating SOX Compliances for all UNIX/Linux environment Tivoli storage manager (Linux, UNIX, Windows Client Server Administration) TSM configuration manage, TSM Library manager updates including TSM database and Recovery logs Splunk log scrub/control management and reporting Restore data from offshore volume and remove from storage pool and checkout the volume from library Creating Policy domains, and Admin Schedules based on End-Client retention needs & Plan TSM backups ensuring no overlap Creating automated scripts to troubleshoot, and monitor hardware errors of drives Chef Server 12, Chef Compliance v1, Chef Automate Implementation, Configuration IBM (ITM 6.2.x) monitoring, client/server implementation and configuration for AIX, RedHat, Oracle, DB2, VMware. Integration with Netcool Version7 suite for network monitoring Administrating PeopleSoft Server 8.4 & 8.5 including: PeopleSoft Application Servers, Process Scheduler Servers, Tuxedo, Web logic Servers UNIX/Linux problem resolution for applications managing logfiles (Splunk), configurations, server process management with infrastructure technologies including Tomcat, WebSphere and JBoss. Managing Peoplesoft Workstations, Application Updates, upgrading Tools Working support tickets with helpdesk team, and documenting changes Updating KNOVA with team documentation Senior Remote UNIX/Linux Engineer Dell - Atlanta, GA October 2013 to January 2014 Installed, configured AIX 6.1.1- 7.1, Trained SA in Administration Produced, Implemented Proactive automated UNIX Shell, ksh, (vmstat, sar, lssrc, top, etc.). Installation of RedHat Environment for application servers Worked directly with DB2 and Oracle teams for direct support (AIX, and Redhat) PeopleSoft 8.4 Patching & Administration. Managing PeopleSoft Database Mentored current, Junior Admins and Operations staff, Developed teachable documentation Senior AIX Remote Engineer HP - Atlanta, GA January 2009 to October 2013 AIX 5.3 - 7.1 - AIX p5,6,7 Build

Engineer. VIO, LPAR, p550 to p770 Linux RedHat - Build Specialist 5.1 - 5.5 24X7 Sr. Unix extended after hours level support (AIX pseries, Linux) RHEL/Oracle Enterprise Linux Application Suite Environment conversion project HACMP, Service Guard, AIX BMR IBM Blade Server Application Brick Install/Setup/Support AIX-Linux-kickstart Shell scripting (bash, sh, Perl, KSH), BMC Patrol proactive monitoring, problem analysis, DAP configuration VMware VCenter version 5.1 RedHat server deployment Datacenter AIX RedHat server relocation, including data move, database rebuild GPFS, NAS, NFS, LVM configuration on physical, and logical devices Oracle Database Admin Support (9.2 - 12) PeopleSoft 8x Administrator. Peopletools support Utilities.Workstations. Tuxedo Version 10 and 11 administration and Objectivity Database management tasks including starting and stopping service, monitoring process availability and starting/stopping services over thousands of servers on AIX 6.1 Tasked with Tuxedo upgrades from version 10 to 11.11 via console WebSphere, Tomcat, JBoss Administrative Support DB2 Production UNIX Administrative Support VCS Veritas Cluster Service Admin for Solaris 9/10 Servers Storix Bare Metal Support Administration TSM Storage Backup Administration & Support Netbackup Client/Server 3rd party configuration EMC Storage Troubleshooting & Support Linux RedHat Implementation Engineer McKesson Inc - Alpharetta, GA January 2008 to January 2009 AIX 5.3 - 6.1 - Remote Architect & Sr. AIX Resource for 94 Live Production servers RedHat Enterprise v5,6, and Oracle Enterprise Linux 5.11, LPAR, VIO server build, and administration HP-UX 11.11-11.23 - First Shift Administrator for 94 Live Production servers Linux RHEL 4.3 - 4.7 - First Shift Administrator for 94 Live Production servers 24X7 Sr. Unix extended after hours level support (AIX p6, p7series, HP-UX, Linux) RDP, Cygwin interface administration for Windows Clients. Custom Shell scripting (bash, sh, Perl, KSH), Pro-active monitoring & support HACMP, Service Guard, AIX BMR IBM Blade Server Application Brick Install/Setup/Support AIX-Linux Shell scripting (bash, sh, KSH), BMC Patrol proactive monitoring, and problem analysis. Oracle Database Admin Support (9.2 - 10.2) EMC Clarion SAN support, and LVM configuration for AIX, Linux, HP-UX clients Development team using C++, Rogue Wave Tools++, Oracle Version 10 OCI and Tuxedo 11 on AIX 6.1 for Server-side development and Microsoft's MFC and

Tuxedo on Windows/NT DB2 Production UNIX Administrative Support Storix Bare Metal Support Administration TSM Storage Backup Administration & Support EMC Storage Troubleshooting & Support Admin of TSM Client/Server Dell - Boulder, CO January 2008 to December 2008 Boulder, CO Jan 2008 - Dec 2008 TSM Administrator/AIX/HP-UX TSM Administrator - Tivoli Storage Manager and IBM Tape libraries and related storage hardware. (Install/patch-update/Admin of TSM Client/Server. IBM System storage IBM 3584, IBM 3582 Ensure, verify all backups for top IBM clients Disney and Fireman's Fund 24X7 Sr. Unix extended level support (AIX 5.3-6.1s, HP-UX 11.11, Linux RHEL 4.3) Shell scripting (bash, sh, KSH, PERL), proactive monitoring, and problem analysis TSM Storage Client Backup Administration & Support TSM Storage Database (TDP) Support Linux RedHat Administrator CCCi / The Coca-Cola Company - Atlanta, GA June 2006 to January 2008 AIX 4.3-5.3 Administrator - Production monitoring, support P570, P690, M80, S70 24X7 Sr. Unix extended level support (AIX 4.3,5.3, HP-UX 11.11, Linux RHEL 4.3) Shell scripting (bash, sh, KSH), BMC Patrol proactive monitoring, and problem analysis EMC Clarion SAN support, RAID, LVM configuration Oracle Database Admin Support (9.2 - 10.2) SAP BASIS Core Application Support, and Q/A MQSeries Core Support and Administration TSM Storage Backup Administration & Support Analyst International Ralcorp Holdings - St. Louis, MO July 2003 to June 2006 AIX Administrator/EMC SAN AIX 5.2 Administrator - Production monitoring, support P690, M80, F50 AIX 4.3-5.2 System Administrator in EMC SAN / HACMP (AA&AP environment) HP 11.11 System Admin for JDE, and PeopleSoft Environment (EPM 8.80 SP2) Assist in Retek Software Integration Implementation (rms, sim, rdw, dwi, ari, alloc) Appworx 5.1.1 Job Scheduler UNIX Administrator - installed, configured, supported Oracle DBA 9.0.2.0.6 (Unix, Linux, Windows 2000) PeopleSoft PeopleTools 8.5 full install and support on HP11i, Windows 2000 Server IBM WebSphere, Tuxedo, and DataStage Config to support EPM environment Sarbanes Oxley Unix, Database, PeopleSoft Compliance Disaster Recovery Unix, Database, Application Specialist Full 24X7 offsite level-2 support AIX Administrator House Call Inc - Knoxville, TN May 2003 to July 2003 Sr. AIX Administrator AmSouth Bank - Birmingham, GA January 2003 to May 2003 Sr. AIX Administrator - Assisted current AIX Admin in Sys Auditing, Tuning, Recovery Methods SP

RS/6000 AIX 4.2.1/4.3.3 PSSP 2.4/3.2 Sys Administrator Switch tuning and SP performance
Maintain 16 Silver Node SP Environment Performance Tuning for AIX 4.3.3 environment TSM,
Sysback - Installation Configuration - for Management of filesystem backup solution Developed
proactive environment system and application specific scripts for performance monitoring
Supported AIX 4.1.2, 4.3.3, 5l environment for Oracle 8, PeopleSoft, MTS LDAP configuration and
administration Developed online System Documentation to train Sr. AIX Administrator, Oracle
Database, Tivoli House Call Inc - Knoxville, TN November 2002 to January 2003 Produced,
Implemented Proactive automated AIX based shell, ksh, AWK, SED, Bash Environment threshold
reporting (vmstat, iostat, sar, lssrc, top, individual application process i.e. ora_pmon) Taught basic
AIX SMIT System Administration Techniques with proven documentation Tivoli TSM Server
Administrator - Manage current backup recovery strategy Synchronized Oracle 8i Development
database with production through dbf migration PeopleSoft Applications Database Administration
over installation, configuration PSAdmin Administration: PeopleSoft Scheduler, Application Server
Produce Strong Documentation to mentor Sr. AIX Administrator, Oracle Database Consultant
Ascent/University Mississippi Medical Center - Jackson, MS July 2002 to November 2002 Installed,
configured AIX 4.3-5.3, Trained SA in Administration via SMIT Produced, Implemented Proactive
automated UNIX Shell, ksh, (vmstat, sar, lssrc, top) Installation of the AIX C-Compiler and Apache
WebSphere for Lawson Environment Installed, configured Oracle 8.1.7.0.2 (for 32bit AIX, and
LINUX 2.4 Redhat 7.3) Developed and implemented backup strategy with ADSM, System Admin,
DBA Mentored current Oracle DBA, Developed teachable documentation Sr. Oracle Database
Administrator MCI WorldCom Inc - Clinton, MS February 2001 to July 2002 Sr. Oracle Database
Administrator - installed, configured, tuned, backed up, managed Main administrator contact for
AIX based Oracle Installation/Configuration Produced Proactive System Monitoring Shell Scripts
for Cronned Jobs, resources, and Application process using ksh, awk, Perl, sed, and standard UNIX
'at' commands In charge of Oracle software orders, upgrades, patches, and migrations TSM
Tivoli Upgrade, Backup/Restoration including client installation 4.1.2 Primary DBA for 27 Oracle
Databases versions 7.3.4-9i Sun, AIX, NT 17 (24X7) Provided hardware and software telephone

and onsite support 24x7 Sr. Systems Programmer Saks 5th Avenue - Jackson, MS January 1999 to February 2001 Sr. Systems Programmer over IBM RS/6000 SP A.I.X. 4.3.x and Oracle Databases

Production Life Cycle -Ordering RS/6000 according to App Specs, Unpacking Installing Software (TSM, Oracle), Database Creation, System Tuning Main admin contact for 9 Production AIX based System Installation/Configuration Tivoli ADSM (TSM and DSM) Installation config with existing Oracle and AIX Successfully installed IBM RS /6000 H50 as well as all OracleDb and Client Software Troubleshot UNIX hardware/software configuration for IBM RS/6000 SP A.I.X. 4.3.x Successful implementation of four production Oracle DB's 7.2.2 -8.1.5 AIX, NT Provided hardware and software telephone and on site 24x7support Systems Programmer/ Administrator Wal-Mart Stores Inc - Bentonville, AR 1996 to 1999 Installed, supported, and maintained UNIX Systems for all Wal-Mart DC's Responsible for installing hardware and building, troubleshooting hardware problems Designed and built network configurations (Ethernet and RS232) Informix/Oracle DBA team contact for System Administrators Configured HP-UX environment for Oracle 7.3.4 - 8.0.5 Supported hands on data center move for HP-UX and AIX servers Provided hardware and software telephone and onsite support Education BS in Computer Science University of Arkansas at Pine Bluff - Pine Bluff, AR Skills Aix, Apache, Hacmp, Ksh, Linux, Red hat, Rs/6000, Solaris, Sun, Sunos, Unix, Ux, Oracle, Pl/sql, Sql, Hp-ux, Nas, Nfs, Veritas cluster server, Cluster server

Additional Information Technical Skills: Languages: Perl, Python, ksh, csh, bash, PL/SQL, Hardware: HP 9000 HP-UX (9-11.23, SunOS, Solaris 2.6-2.8, Sun Ultra 1's, 5's, Sun Enterprise 5000's, IBM RS/6000 (F, H, S70, P690 and P770), PowerVm serversn (LPAR & VIO) Operating Systems: AIX 4.33-7.1, Linux 2.4, Red Hat 7.3.1, CentOS, SUSE, Ubuntu, HP-UX to 11i, Solaris 10 to 11, Windows XP-8 Ancillary Skills: Virtualization, PowerVM, LPAR, FTP, SFTP Protocols, Pyxis Boot Server, HACMP, LVM, NAS, Sysback, NIM Slave/Master Backup configuration, ESS Shark, AIX SMIT, HP SAM, Sun Admin tools, SQL*PLUS , NFS, NAS, GPFS, SSA Drives, Remedy API, Oracle RDBMS, 7.3.4 - 12 ,Oracle Enterprise Management, Metalink, IBM TSM, BMC SQL Backtrack, RMAN, , VERITAS Volume Manager, Netbackup Client Config, Solaris: Veritas Cluster Server v4.0, RedHat Cluster Suite for RedHat/CentOS, RHCSRAID EMC, BCV, SQL*NET, Apache

WebSphere, WebSphere, AWS, Networking: TCP/DNS, Cygwin - Interface, PeopleSoft Peopletools 8.5, Retek (Software Integration), Appworx 5.1.1, Dimensions, JDE 8.0 SP23b1, Active MQSeries 6.0.1.1, Storix BMR, Christie BMR, Capacity Planning, Full Datacenter Migration (UNIX & Linux), including full and partial Migration activities, Security - Hardening, Penetration Testing , Chef Server 12, Chef Compliance v1, Chef Automate, Hadoop, Ruby 2.3.1, Puppet, Splunk, SSL control and management, FoxT BoKS security Monitoring Tools: BMC Patrol, Nagios V4, Nmon/Topaz/Perfmon, Tivoli (ITM 6.23), HP Openview, Custom ksh/bash/perl health check script writing. Automation: Appworx, TWS, CRON
