

Senior Software Developer Senior Software Developer Senior Software Developer - Smart Choice Technologies Lafayette, LA I am a software developer with 7 years of experience working with applications both large and small. Currently, I am working at Smart Choice Technologies on Application, Lottery, and Enrollment software for schools of choice. In addition to this, I am experienced in creating useful tools for automating developer tasks and improving efficiency as well as creating testing environments and implementing CI/CD strategies. There is nothing I enjoy more than putting my skills to the test in solving practical problems. I always strive to discover the best ways to complete tasks as quickly as possible while maintaining the highest level of quality. It is in doing this that I find I am most fulfilled. Authorized to work in the US for any employer
