

DevOps Engineer DevOps Engineer Aurora, CO Work Experience DevOps Engineer Open Technology Solutions - Centennial, CO 2016 to Present net, VS 2015, VS 2017/2018, TFS, TFS GIT, SQL, SharePoint, Visio, Waterfall, Agile, DevOps, Octopus, Veracode \* Process management and documentation for SDLC \* Build and Release engineering \* Software delivery automation \* Release management \* Maintenance and administration of distributed source control systems \* Enable CI/CD \* Design and implement Blue/Green deployment \* Enable usage of TFS for workflow management for all methodologies used \* Enable data collection and reporting for operational quantity, quality, process health metrics \* Management certificates and security standards \* Perform merging and branching in a complex branching structure supporting concurrent agile development. \* Develop, improve and implement build and release strategies \* Migrate teams to DevOps methodology and common suit of tools and standards

**SELECT ACCOMPLISHMENTS**

Automate Software delivery and security scans \* Automate VM snapshots \* Document best practices and processes \* Stabilize production deployments and enable deployment frequency of several a day from one a week. Release and Security Administrator Specialized Loan Servicing, LLC - Highlands Ranch, CO 2013 to 2016 C#, ASP, Java, VS 2012, VSTS, SQL, Report Builder, Waterfall, Agile, DevOps, Octopus, Veracode, TeamCity \* Implement and maintain automated build and deployment process in a suite of tools. \* Customize and update PS scripts. \* Utilize automated deployment tools providing sophisticated release Management suite. \* Perform merging and branching in a complex branching structure supporting concurrent agile development. \* Implement and maintain Builds and Deployments of .NET and other artifacts to various environment. \* Trouble-shoot application functional and security issues, provide and implement solutions. \* Perform regular security scans and maintain reporting and tracking systems for security findings.

Application Developer \* Plan and implement solutions for complex suite of internal integrated applications. \* Troubleshoot and resolve various issues in testing environments. \* Perform various tasks to support the team.

**SELECT ACCOMPLISHMENTS**

\* Software deployment automation \* Manage full cycle of security audit and penetration testing findings from SDLC to Server setup. \* Implement TFS setup for conversion from waterfall to agile methodology and initial DevOps

implementation. Software Developer Trinidad Benham Corp - Denver, CO 2011 to 2013 C#, VS 2005, Subversion, SQL, ASP, Java, FTP, Crystal Reports, Report Builder, Waterfall \* Develop and support complex business application within a small team of developers \* Upgrade applications from VB6 to VB.Net \* Develop and maintain 400+ reports \* Manage full SDLC for internally developed desktop applications \* Analyze existing solution, design and implement dynamic solutions to cut the cost and maintenance

**SELECT ACCOMPLISHMENTS**

- \* Architect and develop a dynamic solution for search functionality
- \* Design and implement templates for a modern look and feel of dynamic user interface

Professional Services Developer Spectrum HR Systems - Denver, CO 2008 to 2011 C#, VB.NET, VS 2005, TFS, SQL, ASP, Java, FTP, Crystal Reports, Report Builder, Waterfall \* Work with internal and external stakeholders to define technical requirement project scope, cost and plan \* Design and implement business problems solutions \* Write and maintain technical documentation \* Design and develop custom reports \* Design and develop scripts for data migration \* Manage and execute SDLC for customizations to HR systems \* Design, document and implement better process and procedure for the development and project management teams.

Software Developer (IVR) Kaiser Permanente - Aurora, CO 2008 to 2008 C#, VS 2005, TFS, FTP, Microsoft Health Vault, SQL Svr 2005, Crystal Reports 10 Visual Source Safe, Waterfall \* User interface SDLC for IVR systems \* Design and implement of SQL databases \* Create and maintain reports \* Manage databases \* Author technical end user documentation \* Research and prototype new technologies and methods

**SELECT ACCOMPLISHMENTS**

- \* HBPM (Home Blood Pressure Management) -Prototyped integrator between Microsoft Health Vault and data storage.
- \* IVR\_GUI - Application to collect dynamic structure of protected medical data of participant base.

Software Developer Advanced Retail Management Systems - Littleton, CO 2004 to 2008 C#, VS 2003, TFS, SQL Svr 2000, XML, DTF, EDI, Access, DTS, Query Analyzer, ODBC, Oracle, TCP/IP, FTP, Waterfall. \* Design, development of software applications and web-based projects \* Testing and maintenance of existing applications \* Cross platform data conversions and data processing \* Design and develop tools and utilities for data analysis and reports \* Manage full SDLC for custom functionality in diverse software systems \* Implementation of application upgrades

and service packs \* Application documentation and operational procedures \* Provide technical support staff and end-user with application, procedural and technical training \* Collect and define client business requirements \* Conduct technical feasibility and cost-time analysis \* Perform duties of systems and technologies expert during sales process \* Code repository maintenance and other configuration management duties    Software System Consultant \* Evaluation of hardware/ software compatibility \* Tier 3 support for point-of-sale and inventory control applications \* Mission failure analysis and implementation of hardware/ software resolutions \* Implementation and maintenance of system Quality of Service and security \* Document procedures and functions    SELECT ACCOMPLISHMENTS \* Multi-System Core Project - Developed and maintained code template used for multiple POS systems co-integrating multiple POS system SDK methodologies. \* RMS Infinium Integration (Sanford Medical Center) - Designed and developed module for data exchange automation between Microsoft Dynamics RMS inventory Control System to Infinium payroll system Education B.S in Computer Science Colorado Technical University - Denver, CO 2005 Skills Devops
