

Lead Software Developer Lead Software Developer Lead Software Developer - Perspecta Inc  
Austin, TX Work Experience Lead Software Developer Perspecta Inc - Austin, TX 2016 to Present  
Developed various modules for Teacher Retirement System of Texas (TRS, Austin TX) using  
RESTful web-services. These modules eliminated manual operations and painful data gathering. ?  
Implemented the batch operations framework, which reduced the processing time by almost 50%.  
Leveraged the BeanIO API (a third party tool) to read/write records from huge flat files. ? Actively  
participated in requirement gathering sessions with system users and SMEs, presented technical  
solutions to clients and system users. ? Received appreciation award in year 2018 for rolling out  
Account Refund functionality to TRS with a minimal number of defects. Senior Software Developer  
Hewlett Packard Enterprise - Portland, OR 2010 to 2015 Developed the web-based interface for the  
members of the Public Employee Retirement System for Oregon State (PERS, Tigard OR). This  
interface transformed customer experience by creating online portal of all PERS related account  
actions. ? Played a pivotal role in architecting and rolling out critical modules for PERS. ? Handled  
all requirements gathering initiatives concerned with Process Death Claims and Beneficiary  
Payments. Software Developer Sesia Consulting (India) 2008 to 2009 Participated in development  
of the Employee Resource Information Center (ERIC, Ohio State) as a part of offshore team. ?  
Actively involved in configuring the individual system modules with other applications. Guided team  
members and constantly sought opportunity to build expertise in ERIC application. Software  
Developer Anveshan Innovative Solutions (India) 2005 to 2007 Assumed responsibility for  
developing web based CRM products that can be customized to cater to the needs of multiple  
industries. ? Actively involved in evaluating, architecting and developing Java/J2EE base RealTime  
CRM Portal. Established and customized the RealTime CRM Portal for new clients. Education  
Master of Computer Applications in Computer Applications Rajiv Gandhi Technical University 2005
