Work Experience N64, IT Specialist Naval Air Facility El Centro - El Centro, CA April 2018 to Present Lead the implementation of security programs designed to anticipate and minimize system vulnerabilities. Review proposed new systems, networks, and software designs for potential security risks, recommend mitigation or countermeasures, and resolve integration issues related to the implementation of new systems within the existing infrastructure. Develop long-range plans for IT security systems that anticipate, identify, evaluate, mitigate, and minimize risks associated with IT systems vulnerabilities. Coordinate the implementation of security programs across Tier I, II, and III systems, and establish vulnerability reporting criteria. Review security incident response policies and identify the need for changes based on new security technologies or threats. Worked through the DOD RMF process, using ACAS, VRAM, eMASS and STIGs to authenticate the NAF El Centro TACLAN Network.

Western Governors University April 2017 to Present April 2017 - Present Faculty in the College of IT Serve a critical advising and support role for student success. Take time to counsel my assigned students in understanding expectations and overcoming obstacles to ensure success. Provide highly engaged, student centered support to a caseload of undergraduate students in the BSIT degree program. Identify my students' learning strengths and weaknesses and connect them with the resources necessary to extend the former and overcome the latter. Incredibly well organized and strong communicator, interpersonally, technologically, and in writing.
