

Professional Driver Professional Driver Professional Driver - Mountain Rentals US Work Experience
Professional Driver Mountain Rentals December 2012 to Present Roles Owner of Five Star
Computers a successful computer repair shop. I installed networks for multiple commercial
establishments in the area and outside of area. I would design, infrastructure and implement
networks to the customers needs and future needs of there business. I also repaired home user
computers and troubleshoot them either hardware issues or software issues. In 2001 I became a
ISP for the surrounding area that I custom built and became very successful. I became very
knowledgeable with T1, T2, T3 and bonded T3 lines. American Mountain Rentals was a
successful cabin rental company in Pigeon Forge Tn. When starting there their reservation system
was DOS Based. I built a server and workstations installed Cat5 network cables and began a new
system infrastructure for their needs. The owners of the company wanted access to the
infrastructure remotely at that time I installed a Sysco router setup the gateway open ports
forwarded IP addresses hosted the DNS servers and gave access points to there remote
computers. I also did alot of satellite (Direct TV) installation's for them as well as Cable using RG6
coaxial cable as RG59 was becoming absolute. At this time LCD TVs we're hitting the Market and
became highly sought after. Cabins became targets in which would be broken into. I got with a local
security department and started installing security systems in the cabins with window and door
sensors. I went as far as installing GPS's inside of the TVS and had a third party monitor them and
was able to recover certain tvs. I also aided in installs of CCTV camera systems at the office and off
site locations. Dedicated network systems administrator with comprehensive data and
telecommunications experience Highly knowledgeable in data network security and wireless
security. Technically Savvy. Highly knowledgeable at solving networking, electronics, and
computer technology issues. Software Microsoft Suite MSWord, Works, Excel, PowerPoint,
Access, Exchange Adobe, Photoshop, Fireworks, Shockwave Apache Operating Systems
Windows 95/98 Windows NT / 2000 Windows Back office Windows Server Windows XP, Vista,
7,8,10 Networking Cisco Routers and Switches VPN Visual Basic, Share Point TCP / IP,
Dynamic IP, Static IP P2P DNS Servers Mail Servers Print Servers DHCP / Port Forwarding I

went to a Truck Driving Academy in Sevierville TN as Trucking was a interest of mine. I past with the highest GPA in my class. From 2012 to Current I have alot of miles and been through most every state of America transporting various commodities safely as possible. Backing wasn't a strong suit of mine in the early stages of Trucking but now has become my strongest there isn't a dock that I haven't been able to back into. Being a professional driver has been a great career and have enjoyed most of it. It isn't what it use to be and the financial aspect of it isn't either. dcx gbgb

Network Administrator / IT Five Star Computers / American January 1998 to July 2019 Assessments Technical Support Proficient July 2019 Measures a candidate's ability to apply protocols to identify errors and solutions in order to maintain system function.
