It s easy to subscribe to this mindset and let cynicism take hold. Why are we Governed? <http://thepoliticsoffacts.com/why-are-we-governed/> 2019-04 Why are we governed? Where does the right to govern the American people emanate from? By what authority does the Government derive it s power to govern? Can life exist without Government? Can our rights be protected without the presence of Government authority? Religious Pluralism & the Christian Right <http://thepoliticsoffacts.com/religious-pluralism-and-the-christian-right/> 2019-06 According to the United States Declaration of Independence, the founding father of the growing American nation set forth on a journey to pave a new path of freedom and liberty by which the young nation was to be guided. This path, guarded by unalienable rights which the declaration asserts, where endowed by their Creator , are natural rights given, bestowed upon and divinely prescribed for every individual. Original Intent: The Separation of Church and State <http://thepoliticsoffacts.com/original-intent-the-separation-of-church-and-state/> 2019-05 The original intent of the founding fathers while crafting the religious clauses of the first amendment was to establish a clear and distinct separation of the church and state. A wall of separation purposely designed to protect the state from the church and the church from the state.
