

Junior Web Developer - Angular Junior Web Developer - Angular Junior Web Developer - NTT DATA Services Austin, TX My name is Derek and I m a full-stack web developer living in Austin, TX.

I am knowledgeable in JavaScript, TypeScript, HTML, CSS/SASS, single page application (SPA) frameworks (e.g. Angular), Git version control, Node.js/npm, Puppeteer, Express, MongoDB, RESTful API, Firebase, Sketch wire-framing and Photoshop. I am a 2017 graduate of the Web Development Immersive program at General Assembly. I'm currently working as an Angular developer, for NTT Data Services, building a new release version of the Texas Department of Transportation's website. My varied background prior to becoming a programmer

(military/finance/healthcare) reflects my learning mindset and provides me with a well-rounded perspective suited to any dynamic team. I am an apt learner of new technologies who understands the value of time-boxing and writing readable code. I am also passionate about delivering user-friendly application interfaces through aesthetic and responsive designs. As a lifelong artist, I have an intuitive eye for design principles and a strong attention to detail.
