

Front End/UI Developer Front End/UI Developer Front End/UI Developer - MUFG Union Bank Tempe, AZ Over 7+ years of extensive experience in software development life cycle (SDLC) in developing and designing user experiences of Internet/Intranet applications using HTML5, HTML, XHTML XML CSS, CSS3, PHP, JavaScript, jQuery Meeting W3C standards. Proven track record in Graphic and User Experience Design and Transforming Web/Graphic Designers static prototypes into hand-coded HTML, specifically emphasizing accuracy and efficiency & adhering to W3C-established web standards with respect to maintaining cross-browser/cross-platform compatibility and delivering final page templates, including optimized images. Good knowledge of latest version of object oriented JavaScript Libraries like Angular.js, Node.js, Backbone.js, Bootstrap, EXTJS 4.0, and Require.js, Handlebars, Ember.js and Dojo toolkit. Experience in designing web applications employing Search Engine Optimization (SEO) techniques and Search Engine Strategies (SES). Experience with Responsive Web Design and Bootstrap. Expert in creating Templates, Web Interfaces, Layouts, and Flow of Future Pages. Expertise in designing and developing User Experiences for Web Applications using Web Authoring tools such as Adobe Dreamweaver CS3, Adobe Illustrator, and Adobe Flash. High level of expertise in CSS pixel-level layout, Consistency with browsers, Version and Platform Independence. Good experience working on CSS Background, CSS Positioning, CSS Text, CSS Border, CSS Margin, CSS Padding, CSS Table, Pseudo Classes, Pseudo Elements and CSS Behaviors in CSS. Expert in working with cutting edge front- end technologies/ framework and libraries like JQuery, Prototype, (X)HTML, DHTML, OO JavaScript, JSON, DOM, CSS, XML/XSLT, AJAX. Proficient with creating Logos, Banners, Buttons, Icons and Images using Adobe Flash and Adobe Illustrator. Well versed W3C standards. Extensive experience in various UI widgets using JavaScript libraries (jQuery) and developing Rich Internet Applications RIA. Experienced in data driven-UI component where a single application serves as the website for multiple customers. Good knowledge of using JavaScript testing frameworks, Jasmine, Protractor and QUnit. Expertise in working with kendo to develop modern web applications and easily combine with pretty responsive apps. Skilled at analyzing and solving browser compatibility challenges and possesses ability to maintain

consistency and well commented HTML and CSS markup. Worked with Agile waterfall and scrum methodology. Experience in using Web Services like SOAP protocol in JAXWS and RESTFUL web services Proficient in Object Oriented Design/Development (OOD), Object Oriented Analysis and Design (OOAD), Model View Control (MVC) design pattern and Test-Driven Development (TDD). Good knowledge in JavaScript testing tools with Moche and chai. Experience with User Acceptance Testing (UAT) and Accessibility Testing. An energetic individual, able to communicate effectively, to work collaboratively to resolve problems and to motivate team members as well. An experienced software developer passionate about delivering quality software products with thorough & rigorous testing and ample documentation. Excellent analytical and logical programming skills with a good understanding at the conceptual level and possess excellent presentation, interpersonal skills with a strong desire to achieve specified goals

**Work Experience Front End/UI Developer**

**MUFG Union Bank - Blythe, CA July 2017 to Present**

**Responsibilities:** Involved in Requirement gathering phase in order to gather the requirements from the business users and dealing with UX team to continuously accommodate changing user requirements. Developed the front end of the application using HTML5, CSS3, SASS, JSP, JavaScript Applied advanced HTML, JavaScript, and CSS to deliver cutting-edge user interfaces and components. Created interactive websites and website features using JavaScript and JQuery/ JQuery UI. Used Angular.js and Node.js for developing single page web applications. Wrote Page level code using JavaScript with Angular.js framework along with JQUERY and other JavaScript libraries. Spearheaded adoption of Responsive Web design principles. Creating interactive prototypes using HTML5, CSS3, JavaScript front end code from a combination of wireframes, visual designs and design standards. Utilized Adobe Fireworks, Adobe Photoshop, Adobe Dreamweaver and Illustrator for the front- end development such as graphics and multimedia's. Converted existing websites to Responsive websites. Used Jasmine to perform unit testing of custom filters, custom directives and various parts of AngularJS application. Developed front- end view templates with Node.js. Responsible for creating the screens with table-less designs meeting W3C standards. Worked with Node.js to give a structure with rich API over a RESTful JSON interface. Wrote application level code to

interact with the backend databases JQUERY, AJAX and JSON. Implemented Grails Services and controllers to perform actions. Used Dreamweaver, Photoshop, Flex for implementing application and designing graphics and images. Applied JQuery scripts for basic animation and end user screen customization purposes. Involved in rendering custom HTML tags using React.js. Implementing client-side Interface using React.js. Worked upon the dashboard for the project which contained a variety of charts and drag gable components using JQUERY UI Library. Used JQuery mainly for adding several functionalities to the application (calendar, tooltips, popover, hiding elements validation, making Ajax calls, etc. Used AJAX for asynchronously exchanging small amount of data with the server behind the scenes and updating the JSP page. Used AJAX and JSON to make asynchronous calls to the project server to fetch data on the fly. Developed and deployed Action Classes and JSP for Dynamic HTML generation. Generated new and edited existing design with CSS to accommodate new changes in design and logic. Created web pages which are informative and yet very neat and interesting to look at. Responsible for design and development of the web pages from mock- ups. Worked closely with business users and developers of team to resolve issues. Environment: HTML5, CSS3, JQuery, AJAX, Responsive Web Design, Jasmine, Grails, Angular.js, python, Node.js, React.js, JQuery UI, JSON, Dreamweaver, Photoshop, Flax, JavaScript, JSP, SASS and Windows. Front End/UI Developer Fifth Third Bank - Cincinnati, OH April 2016 to May 2017 Responsibilities: Analyzed business requirements, participated in technical design, development and testing of various modules assigned. Used the functionalities to write code in HTML5/HTML, CSS3/CSS, Angular.js, JavaScript, JQuery, Ajax, JSON, and Bootstrap with MySQL database as the backend. The project is built upon the Single Page Application (SPA) criteria. Developed Web application for backend system using Angular.js with cutting edge HTML5 and CSS3 techniques. For new website features wrote Angular.js controllers, views and services. Involved in developing a new business application to the layout using Grid orientation model Bootstrap framework. Used Backbone.js and Require.js to create Views to hook up models to the DOM and synchronize data to/from server. Designed Frontend with in object oriented JavaScript Framework like Node.js and

Ext.js. Developed JQuery code using an XML Http Request Adapter to send an AJAX request to the server side code and also implemented a callback function to handle the results. Worked on prototypes for Responsive Web design. Implemented JavaScript source code and embedded nested handling logic using JQuery event handlers and call back functions. Developed the JQuery callback functions for implementing asynchronous communication using AJAX. Extensively used JQuery UI for screen design and development. Involved in Coding, styling, testing of reusable JavaScript, CSS3, HTML5 widgets/ libraries for complete UI controls. Designed user-friendly navigation for displaying various sections of data using JQuery. Created Dynamic Web Pages using Web Controls and developed forms using HTML5. Coded pages with best Search Engine Optimization (SEO) techniques. Used Dreamweaver, Photoshop, Flex for implementing application and designing graphics and images. Used Content Management system (CMS) for the dynamic configuration of the header and footer of the web application. Styling pages using CSS3.0 and developed JavaScript for user interfaces. Used CSS Blueprint to create grids and adopt cross browser interactive features and to make the web pages more. Implemented XML parsing code for different application. Developed server-side REST style web services and called them from angular controllers. Frequently met with the project manager to review project goals and to create proposals for future developments, researching their fields for UI design. Worked with the team of architects and back- end Developers to gather requirements and enhance the application functionality and add new features. Environment: HTML5, CSS3, JQuery, Bootstrap, Angular.js, Require.js, Ext.js, Node.js, Backbone.js, Responsive Web Design, AJAX, JQuery UI, JavaScript, Dreamweaver, Photoshop, Flex, MVC, Rest Web Services, JSON, XML, SEO, MySQL Server, Eclipse and Windows.

Front End/UI Developer Selective Insurance Co - Irving, TX August 2015 to March 2016 Responsibilities: Developed CSS based page layouts that are cross-browser compatible and standards-compliant. Developed HTML views with HTML5, CSS3, Bootstrap and Angular JS. Used JQuery for basic animation and end user screen customization purposes. Developed creative intuitive user interfaces that address business and end-user needs, while considering the technical, physical and temporal constraints of the users. Involved in the

development of presentation layer and GUI framework using Angular JS and HTML. Built different modules, controllers, templates, custom filters and directives in Angular JS. Designed dynamic and browser compatible pages using HTML5, CSS3, JQuery and JavaScript. Involved in rendering additional components with custom HTML tags using React.js. Involved in writing application level code to interact with APIs, Web Services using AJAX and Angular resources. Developed code for Responsive web design in JavaScript using frameworks like Angular.js, React.js. Responsible for making responsive web pages using twitter bootstrap and media queries. Enhanced user experience by designing new web features using MVC Framework like Backbone.js and Node.js. Used Knockout.js to simplify the complex data-based for user interfaces. Used groovy and spring boot to collecting the data from users and packaged the data as JSON distributed to applications. Implemented Grails Services and controllers to perform actions. Making changes to the existing web applications and creating new components using React.js. Used CSS pre-processors (SASS). Experience working with Redux for maintaining the consistency to run the application in different environments (client, server, and native) which are easy to test. Used Grunt for building the project. Worked with agile technology. Managed projects with GRUNT task runner. Involved in Developer Testing, Review and Trouble shooting. Developed UI tests with Protractor and Java tests in JUnit. Designed and Developed automation script using Selenium Web Driver in Eclipse. Used LAMP to suitable for building dynamic web sites and web applications. Handled response data from RESTFUL web services using XML, JSON and JQuery to update UI Interacted with java controllers (JQuery, Ajax, and JSON to write/read data from back end systems). Created GET/PUT request and response using RESTFUL web services. Environment: HTML5, CSS3, AngularJS, knockout.js, React.js, Groovy, Grails, AJAX, Responsive Web Design, Node.js, LAMP, JQuery UI, JSON, Atom, Photoshop, Flax, JavaScript, JSP, SASS, LESS, Agile methodology, GIT, Eclipse and Windows. UI Developer Aetna - Hartford, CT June 2014 to March 2015 Responsibilities:

Involved in various phases of Software Development Life Cycle (SDLC) of the application like Requirement gathering, Design, Analysis and Code development. Designed dynamic and browser compatible pages using HTML, DHTML, CSS, JQuery and JavaScript. Responsible for creating

the screens with table-less designs meeting W3C standards. Involved in extensive HTML coding.

Responsible for developing the pages using JQuery, AJAX, and JSON to parse on data on the frontend on the fly. Designed CSS based page layouts that are cross-browser compatible and standards-compliant. Implemented the design of web pages and provided user roles using JSP, JSTL, HTML, AJAX and Developed Clinical Trials and prescribing information modules using Ajax and JavaScript technologies like DOJO. Implemented chained select plug-in for JQuery with JSON processing and callback feature, chain multiple selects with ease. Applied industry best practices and standards when project requirements were lagging. Implemented different validation control on the web-pages using JavaScript. Involved in developing HTML and JavaScript for client-side presentation and, data validation on the client side with in the forms. Developed Page layouts, Navigation and presented designs and concepts to the clients and the management to review. Involved in developing XML, HTML, and JavaScript for client-side presentation and, data validation on the client side with in the forms. Worked with the QA team to fix the bugs, test the load, and performance checking. Responsible to track different versions of files using VSS. Worked on cross browser compatibility issues and fix the bugs pertaining to various browsers. Environment: HTML, DHTML, CSS, AJAX, JavaScript, JQuery, XML, JSON, W3C, SVN, Dreamweaver, Microsoft FrontPage, Adobe Photoshop CS3 and Windows. UI Developer AR Inc - Dallas, TX May 2013 to May 2014 Responsibilities: Involved in designing and implementing Web2.0 Rich UI for the Self-service Application using JQuery AJAX framework and Widget based JavaScript programmed model. Followed the Agile and Scrum development methodologies Rendered HTML from XML stream using XSLT as per the business logic for different widgets. Developed screen functionality using HTML, CSS, JavaScript and JQUERY. Generated UI mock-ups from paper-and-pencil concepts to high-fidelity prototypes that convey the interaction model using HTML, CSS and JavaScript. Used JQuery core library functions for the logical implementation part at client side for all the application. Developed client-side validation code using JavaScript and JQuery. Involved in developing HTML and JavaScript for client-side presentation and, data validation on the client side with in the forms. Designed page - layouts using Dreamweaver and banner using Adobe

Flash. Involved in implementing java rendering framework which manages the pages on the server side. Involved in developing the Validations across the application using JQuery Validator plug in.

Participated in defect review meetings with the team members using Bugzilla, Firebug, and Google's element inspector. Involved in implementing the UI to support all the major browsers. Worked with partners and clients at every stage of implementation of the integration, for instance to gather requirements, finalize analysis, review completed implementation, UAT and sign-off.

Environment: HTML, CSS, JavaScript, JQUERY, AJAX, XML, Dreamweaver, Adobe Flash, agile and Windows. Web Developer Key Bank - Brooklyn, OH March 2011 to April 2013 Key Bank is largest family -owned bank in the United States who deliver a broad range of financial services to individuals, small businesses, middle-market companies, large corporations and institutions. The bank must analyze each of these screened items to ensure compliance with government regulations. User Management module, Transaction module, Report module, and Payment module are the key modules which system was built. Responsibilities: Worked with HTML, CSS, JavaScript, jQuery, DOM to write components, services, styles and unit test cases. Involved in Requirements phase of SDLC to gather the requirements from business users, maintaining, enhancing and suggesting solutions to the UI team to assist the changing requirements. Used jQuery for complex DOM manipulation and selection to create custom directives, angular components, controllers and services. Used Promises to handle asynchronous with Rest API. Used Bootstrap, OOP web development for responsive web design. Experienced in building web UI using HTML, CSS, DOM, jQuery, JavaScript that are browser compatible. Responsible for making pages dynamic utilizing the AJAX, JSON, XML. Responsible to manipulate HTML and CSS in jQuery. Used PL/SQL to create, update and manipulate tables. Developed we-based UI using Struts framework. Involved in creating page layouts, custom links, related, lists and other components on the web pages. Experience in MVC framework using Angular JS custom directives, controllers, services, model and factories. Experience in developing Single Page Application (SPA) using Angular JS. Used Firebug as a debugging tool. Experience in testing the functionality and compatibility of the application in multiple browsers like Chrome, IE, Safari,

Firefox, and Opera. Well- versed with the Software development Lifecycle (SDLC) all its phases. Worked on Agile methodology. Created SQL queries to perform insert, update and delete operations on MySQL database. Environment: HTML, CSS, JavaScript, jQuery, DOM, Bootstrap, OOP, AJAX, JSON, XML, PL/SQL, Struts, MVC, Angular JS, Firebug, MySQL database. Education Bachelor of Arts in Digital Media California State University Dominguez Hills Skills AJAX (6 years), CSS (6 years), HTML (6 years), JAVASCRIPT (6 years), jQuery (6 years) Additional Information Technical Skills: Web Technologies-HTML, HTML5, XML, CSS, CSS3, JavaScript, JQuery, PHP, AJAX, DOM, DOJO, Core Java, GUI, Responsive Web design, JSON, Gradle, Gulp, Grunt, SASS, LESS, Mustache, Python, Kendo. IDE & Tools-Web Storm, Notepad++, Adobe Dreamweaver, Adobe Flash Professional + Action Script 2.0/3.0, Microsoft Publisher, Eclipse, Atom, Edit Plus. Version Control- SVN, CVS, GIT, JIRA JavaScript Libraries-JQuery UI, Ext JS 4.0, Require.js, React.js, Backbone.js, Angular.js, Node.js, Ember.js, Bootstrap.js, knockout.js, Handlebar.js Publishing Tools-Adobe PageMaker, MS Office Wire Frame Tools-Adobe Illustrator CS3 Data Access-MY SQL, Oracle
