

Front End Developer Front End Developer Front End Developer Phoenix, AZ Work Experience  
Front End Developer OMNITEC Solutions Inc January 2018 to September 2018 Develop themes for content management systems and public facing websites for the US government. ? Converted old, non-mobile friendly sites to fully responsive sites using Bootstrap. ? Utilized the tools Vue.js provides to create large web applications with modular structure. Front End Developer PrizeLogic June 2017 to December 2017 Develop promotional sites for Fortune 500 level companies such as Capital One, American Express, Samsung, etc, using HTML/CSS/JS and C#. ? Used ASP.NET MVC framework as most of the sites developed were based on previous designs and used JSON for exchanging data. ? Communicated with the project manager as well as other developers throughout the day both verbally and non-verbally. WordPress Developer Endurance International Group October 2016 to June 2017 Hired as base level tech support, was promoted twice during training to WordPress Developer. ? Designed and developed customers' websites. Included the use of custom theme and plugin development. Design GoDaddy - Scottsdale, AZ September 2015 to October 2016 Worked with members in the design department to help build websites for small business to enterprise level companies. ? Most proficient on my team with web-based programming languages, as the position was more design focused than development focused. ? Tasks ranged from starting from scratch to editing already existing HTML, CSS and occasionally JavaScript.
