

Front End Developer Front End Developer Front End Developer - PayPal Fremont, CA Having 5 Years + of experience in all phases of Software Development Life Cycle (SDLC) which includes Analysis, Design, Development, Implementation and Testing of web-based applications using web technologies such as HTML, HTML5, CSS2/3, JavaScript, DOM, CSS, jQuery, JSON, AJAX. Experience in writing web application programs covering front- end / UI using ReactJs & AngularJs for building rich user friendly, high performance web applications. Experience in consuming & creating REST API's with NodeJs Experienced in preparing and executing Unit Test Cases & Functional Test Cases based on business requirements and technical Frameworks like Jest, Jasmine, Protractor, SinonJs, NemoJs & Selenium Webdriver Web development experience in developing dynamic websites with emphasis on content management, interactive portals and complex online systems following WCAG and W3C standards Professional in creating Templates, Mockups and Prototypes, Web Interfaces, Layouts and Flow of Future Pages. Extensive experience in using Photoshop, Illustrator, Adobe Dream WeaverCS4, sublime, Notepad++, Firebug and Chrome developer tools. Experience in software configuration management using SVN, GIT Experienced with traditional (Waterfall) and Agile development and project management methodologies (Scrum, XP). Proficient problem-solver who envisions business and technical perspectives to develop workable solutions and a Good communicator with exceptional writing, presentation, and interpersonal skills. Highly Curious about new front- end development technologies and adapt at promptly and thoroughly mastering them with a keen awareness of new industry developments and the evolution of programming solutions Exceptional ability to quickly master new concepts and a proactive team player. Dedication and hard work with smart and fast are the best investment I can make on any job. TECHNICAL SKILLS Operating System: Windows-9X, Windows NT/2000, Windows XP/7/8 (Prof), Linux. Languages: C, C++, JAVA, J2EE Application/Web server: Tomcat Apache, WebSphere Graphics Editors: Adobe PhotoShop CS3, Illustrator, Wireframe, Sketch Web Technologies: HTML/HTML5, CSS2/3, JavaScript, AJAX, jQuery, JSON, Angular, BackboneJs, D3Js, ReactJs, NodeJs IDE'S: Eclipse, Sublime Text Editor, WebStorm, Atom Database: Oracle9i, MySQL Version Controls: SVN, GITHUB Content

Management Systems: Drupal, Joomla, Wordpress Methodologies and OOAD tools: Analysis and Design (OOAD), UML. Authorized to work in the US for any employer Work Experience Front End Developer PayPal - Sanjose, CA, US October 2015 to Present RESPONSIBILITIES: Worked in a team, involved in developing one of the product for Muse (Moving Up shopping experience) which enables promotional banners on merchant websites for tracking analytics & insights which is also called as Tagmangernodeweb Worked closely with Middle-Tier by using customized Node Frameworks like krakenJs using modules like Makara, Kappa, Adaro Designed and created a dynamic website model which served as design guide for the development team. Worked on HTML/HTML5, CSS/CSS3 style sheets, JavaScript, Nodejs, ReactJs and Redux to tie together a diverse range of app with an easily understandable structure. Worked with accessing the Processor Services and Catalog Monitors to monitor the Transactions. Closely developed Node API to generate the active services and Node App. Involved in creating & writing the unit test cases with Enzyme, Mocha, SinonJs & Chai assertion library. Developed Nemo functional tests for automation & Istanbul unit tests for code coverage reports. Worked with Mayfly store to generate access tokens & Reference id's which are used in Node App. Worked on JavaScript and HTML5 Browser Cache mechanism for storing and retrieving data for the website. Involved in working with stages for Production Release, developed cross-browser/platform pages using CSS3 Media Queries and JavaScript to match design specs for complex page layouts while adhering to code standards. Create complex JIRA workflows including project workflows, screen schemes, permission scheme and notification schemes in JIRA. Worked on Build tools like Webpack & Grunt for production and stage builds. Worked with an Agile, Scrum development methodology to ensure delivery of high quality work with monthly iteration, involved in sprint planning and retrospectives ENVIRONMENT: HTML/HTML5, CSS/CSS3, JavaScript, Nodejs, ReactJs, Redux, KrakenJs, Nemo, Mocha, Enzyme, SinonJs, JSON, AJAX, XML, XHTML, GitHub, Chai Front End Developer Accenture Tech Labs - Sanjose, CA, US July 2015 to October 2015 RESPONSIBILITIES: Worked on HTML/HTML5, CSS/CSS3 style sheets, JavaScript, Nodejs, ReactJs and jQuery to tie together and creates a product for "analytics-orchestration" Applied data visualization by adding

grids and dynamic graphs with data fetched from JSON web services Designed and created a dynamic website model which served as design guide for the development team. Used Most of the d3Js to render the analytics Charts like Gauge Map, Heat Map, Tree chart, Stacked Bars and Maps like Leaflet, Map box. Focused on resolving cross browser compatibility regarding to redesign of CSS and JavaScript. Used the responsive utilities of the Bootstrap frameworks to facilitate the design displaying properly on different devices. Written unit tests for the components with Mocha & Chai assertion library. Used Redux to manage state and manipulate reducers store with plain Js actions Worked on React component cycle, babel dependencies, ES6 &5 presets.

ENVIRONMENT: HTML/HTML5, CSS/CSS3, JavaScript, Nodejs, ReactJs Mocha, Axios, JSON, AJAX, GitHub, Chai Front End Web developer State Bank of India Life Insurance - IN May 2012 to December 2014 RESPONSIBILITIES: Involved in write application level code to interact with APIs, Web Services using AJAX, JSON and XML. Ability to rapidly prototype interface designs in hand-coded validating, standards-compliant, and semantically rich code. and be aware of cross-browser compatibility and bugs. Used AJAX for implementing part of the functionality for Customer Registration, View Customer information modules. Developed UI using HTML5, CSS3 and written code for DOM validations using plain vanilla JavaScript including JQuery library.

Experience in planning and delivering software platforms used across multiple SBI products and organizational units. Used Firebug and IE Developer Toolbar for debugging and browser compatibility. Used CSS Blueprint to create grids and adopt cross browser interactive features.

Implemented various Search Engine Optimization techniques as metadata, building inbound link, and outbound link text, meaningful title while designing web pages. ENVIRONMENT: HTML/HTML5, CSS/CSS3, JavaScript, Mocha, JSON, AJAX, GitHub, Chai Education Masters in Computer Science NorthWestern Polytechnic University - Fremont, CA 2015 to Present Bachelors in Computer Science Jawaharlal Nehru Technological University - Hyderabad, Telangana 2012 to Present Links <https://www.linkedin.com/in/anvesh-katipelly-b5900aba>
