advisor to support JONAS Early days within HeroPlugins: Development of all themes, plugins and frameworks Head of client enagement via support and integration WEB DEVELOPER One of my primary roles over and above my development duties in the past was to engage with clients who required assistance regarding our products. EXPERIENCE I have just recently been made Director and given shares within the HTML / CSS company as a result of all the work that I have done. As part of this new role I have been included into most of the companies processes. 10 YEARS One of my primary goals as a shareholder would be to engage directly PHP / BACKEND with the project stakeholders and discuss future developments. 7 YEARS JAVASCRIPT / JQUERY 9 YEARS Developing engaging and responsive application's for users around the world is truly a wonderful feeling. HEROPLUGINS PROJECTS inVogue WooCommerce 3.0 Theme StayWild Blog/WooCommerce 3.0 Theme Hello Friday Blog/WooCommerce 3.0 Theme HeroMenu WordPress Plugin HeroSlider WordPress Plugin PROJECTS/COMPANIES HERO THEME FRAMEWORK Before development of any theme could start, I was tasked with developing a theme framework. WHAT I DEVELOPED Theme backend framework EDWIL This included developing a platform that would hook directly into our updating server. It also has a newly built data saving method JONAS that was developed by me. Framework architecture WEB DEVELOPER I sat for weeks developing the architectural flow of the theme framework. After my experience with the plugins, I knew it was time to develop a new process that would make updating the theme easier. EXPERIENCE Shortcode plugins HTML / CSS A small plugin was required for all shortcode content to be loaded properly. 10 YEARS This was initially part of the theme class files, but I was required to exclude this and package it as a standalone plugin. PHP / BACKEND 7 YEARS All Front- end and jQuery development CSS and jQuery was used to complete the front-end, all responsive JAVASCRIPT / JQUERY was done with my own responsive layout/code. 9 YEARS INVOGUE THEME inVogue was the first theme that was built on the new framework. This theme would also allow me to test my framework and add any additions if required QUICK LINKS <http://invogue.heroplugins.com/> <https://www.herodatacenter.com/changelogs/?tid=60> PROJECTS/COMPANIES HELLO FRIDAY HelloFriday was planned to be a simple blog theme,

but as the development process neared its end, we decided to include WooCommerce. This time WooCommerce would be integrated differently with a far better approach, allowing updates to files and included overwrite files to be done far quicker. This would eventually be the standard for themes going forward. EDWIL Improving the WooCommerce integration also improved loading

times. JONAS QUICK LINKS <http://hellofriday.heroplugins.com/>
