

UI Developer UI Developer UI Developer - AT&T Dallas, TX About 3 years of extensive experience in the field of Web Applications development using HTML 4.01/5, CSS (2/3), JavaScript, JQuery, AJAX, Bootstrap3, JSON, Angular 1.X, Angular 2 and TypeScript Expert in developing web page quickly and effectively using, HTML 5, CSS3, JavaScript, JQuery Angular 1.X, and Angular 2 also experience in making webpage cross browser compatible. Experience in working MVC Architecture and also in using version control(SVN) Extensive Experience in Applications using AJAX, Object Oriented (OO) JavaScript, JSON. Experience in debugging and troubleshooting the existing code. Experience in complete Software Product Development Life Cycle. In-Depth knowledge/Experience of Web 2.0, JavaScript, JQuery, W3C Standards. Experience in using various IDE's, Dreamweaver, Notepad++, Visual Studio and Eclipse. Great ability to write clear, maintainable, well-documented, well-commented and efficient code for web development. Extensive experience on SASS, bootstrap, GIT and GRUNT. Experience Karma, Mocha, Jasmine Unit Testing, responsive web design. Authorized to work in the US for any employer Work Experience UI Developer AT&T - Richardson, TX November 2016 to Present Responsible for developing all the UI pages using HTML, CSS3, Bootstrap, Angular 1.x Angular2, JavaScript, TypeScript, ChartJS, AJAX, JSON and RESTful API. Utilized the features of Angular2 to present effective web design. Created single Page Application with loading multiple views using route services and adding more user experience to make dynamic by using Angular JS 2 framework. Experience in working different changed procedures of Angular 1.x to Angular2 such as, @Route, RouterOutlet, router-link etc. Utilized jQuery UI for dialogs, date picker, tabs, model pop ups and advanced components to implement UI model. Created Widgets, Dashboards, Charts, login functionality implemented and session handling base functionalities added. Created Angular2 components, implemented Interpolation, Input variables, Bootstrapping, NgFor, NgIf, RouterOutlet, binding the click event, Component decorator, binding to the hidden property. Leveraged Angular2 resources for all data access, encapsulating URLs and standardizing data access interfaces. Created custom directives for re-usable components (Multi-filed form elements, background file uploads etc.) Created/Modified Angular2 components and modules. Created graphs using

ChartJS and HTML5 UI Developer Hyundai AutoEver America (HAEA) - Irvine, CA June 2015 to September 2016 Iteratively prototyped and built clean and intuitive user interfaces based on the business requirements. Participated in all Scrum ceremonies (Daily Stand-ups, Sprint Planning, Backlog review, Story Estimation meetings, Retrospective and Demo) while implementing the best Agile/Scrum practices based on extensive training. Developed GUI using JavaScript, HTML/HTML5, AJAX, CSS3, JQuery and Angular JS in ongoing projects. Designed (in code) user experiences to help users navigate highly interactive, complex web apps by making our pages fully responsive using Bootstrap3 with AngularJS. Utilized responsive web design techniques and standards to mitigate cross-browser and cross-device inconsistencies. Used LESS/SASS to organize and make CSS easier to manage in large web apps. Used JavaScript to achieve desired user experience and functionality as needed Follow team-established development best practices and coding styles Ensured implementations follow web standards, accessibility, and usability best practices. Created Single page applications using AngularJS. Implemented Model View Controller (MVC) Design Pattern using AngularJS Used \$http in AngularJS for consuming RESTful web services. AngularJS created custom directives for data manipulations and to display data in company standard format in UI. Used \$httpProvider with AngularJS interceptors to make sure the requests are authenticated. Environment: Environment: AngularJS, HTML5, CSS3, JavaScript, jQuery, NodeJS, XML, JSP, Eclipse 4.2, SVN, Sublime, Grunt, GIT, SCSS, AJAX. Front- end Developer Pro-Tek Consulting - Encino, CA April 2014 to May 2015 Worked in a team, involved in developing the UI, layout and front- end programming (HTML) for web application that matches requirements. Excellent Coordination in project activities and ensure that all project phases are followed and documented properly. Designed the front- end applications, user interactive (UI) web pages using web technologies like HTML, and CSS. Have hands-on experience with MVC on single page applications. Developed non-functional HTML, CSS pages from the mock ups and involved in UI review with UI architect and Business Units. Converted the mock-ups into hand-written HTML, CSS (2/3), XHTML, JavaScript, JQuery, AJAX, XML and JSON. Improved user experience by designing and creating new web components and features Followed MVC

Structure to develop Application. Handling cross browser/platform compatibility issues (IE, Firefox, and Safari) on both Windows. Coded JavaScript for page functionality and Lightbox plugins using JQUERY. Environment: HTML5, HTML, CSS2/3, JavaScript, Tomcat Apache, JQuery, JSP, Oracle, AJAX, SVN Education Psychology Mission College - Sylmar, CA February 2009 to December 2010 Business Administration Pierce College - Encino, CA January 2008 to May 2009
