

Back End Developer & Project Manager - Systems Integration School Project Back End Developer & Project Manager - Systems Integration School Project Information Technology Professional Caldwell, NJ Strong interest in SecOps. Looking to build a career. Work Experience Back End Developer & Project Manager - Systems Integration School Project NJIT January 2019 to May 2019 Project involved integrating the third party data source of the Open Movie Database API with a custom front end through a multiple server environment. I was responsible for Project Management, setting up the Front and Back End servers, implementing the OMDb API, RabbitMQ messaging layer, framework for the web based front end, networking for the server clusters and the central Logger for the project. Programmed Back End in PHP and managed the database with PHP-based mysql commands. Also integrating the Back End Apache server with messaging queue which served as a relay for all database communication. Junior Webmaster (Internship) Breakers & Controls NJ, Inc - Fairfield, NJ June 2018 to August 2018 Advertising Campaign Data Analytics. Database Management.
