

Java Developer Java Developer Java Developer - LexisNexis With 5 years of strong IT experience in development and implementation of enterprise applications using JAVA, J2EE Technologies. Excellent designing, architecting, debugging, troubleshooting skills. Thorough in J2EE technologies like Spring, Hibernate, Web Services, Design Patterns, SOA, SOAP, Struts, Tiles, MVC, EJB, MQ Series, JMS, JSP and Servlets. Have worked on application servers like Web logic, WebSphere, Tomcat, JBoss, JRun. Strong in databases like Oracle, SQL Server, DB2, MySQL. Extensive experience in Apache STRUTS Framework versions, DynaAction, DynaValidator forms, Exception Handling, STRUTS Validator Framework. Expertise in building strong websites confirming Web 2.0 standards using Yahoo User Interface (YUI) Framework, JQuery, HTML, XHTML, DHTML & CSS to develop valid code and table-free sites. Experience in Drupal Themes developing Drupal custom modules, resolving Drupal configuration issues. Experience in Web services using AXIS, REST FUL API. Strong knowledge in Spring Framework using IOC/ AOP, Spring Transaction support (Declarative/ Programmatic), Hibernate in spring. Experience in developing web based applications using Google Web Toolkit (GWT) and J2EE Servlet technology. Experience in developing MVC, OOPS, OOAD, J2EE Design Patterns, UML-Rational Rose and Java Sever Side Programming using development tools like Rational Application Developer RAD v7.0, log4j, WSAD, Eclipse, Toad, testing tools like LoadRunner, ClearQuest and Configuration Management tools like Clear case, VSS, Serena PVCS. Good knowledge in log4J implementation to persist the data into logs files. Experience in using JMS, MQ, MQ JMS API, and Integration of Web Sphere MQ with IBM WAS, Message Driven Beans (MDB) Worked with development tools like TOAD, Eclipse, IntelliJ IDEA, WSAD, Ant, Maven, XDoclet, and WSAD. Experience in various J2EE Frameworks like JSF, My Faces, iBATIS, JIBX, JAXB, AJAX, DWR, GWT, and DOJO. Used testing framework like JUnit, HTTP Unit, DBUnit, STIQ, and JMock. Strong experience on AGILE (SCRUM) and Waterfall SDLC. Experience in mentoring, leading, planning and execution of client projects, liaison with business and IT management. Excellent analytical capabilities and good communication skills. Ability to quickly adapt to new environments and learn new technologies. Work Experience Java Developer

LexisNexis - Dayton, OH December 2017 to Present Responsibilities: Responsible for the Requirement Analysis and Design of Smart Systems Pro (SSP) Involved in Object Oriented Design (OOD) and Analysis (OOA) Analysis and Design of the Object models using JAVA/J2EE Design Patterns in various tiers of the application. Worked with Restful Web Services and WSDL. Worked with Maven build tool to build the Project. Involved in Coding JavaScript code for UI validation and worked on Struts validation frameworks. Analyzing the Client Requirements and designing the specification document based on the requirements. Worked on implementing directives and scope values using AngularJS for an existing webpage. Familiar with the state-of-the-art standards, processes, design processes used in creating and designing optimal UI using Web 2.0 technologies like Ajax, JavaScript, CSS, and XSLT. Involved in the Preparation of Program Specification and Unit Test Case Document. Designed the Proto according to the Business requirements. Used application servers like WebLogic, WebSphere, Apache Tomcat v8.0, Glassfish and JBoss based on the client requirements and project specifications. Involved in mapping of all configuration files according to the JSF Framework Written SQL, PL/SQL and stored procedures as part of database interaction. Testing and production support of core java based multithreading ETL tool for distributed loading XML data into Oracle11g database using JPA/Hibernate. Used Hibernate framework and Spring JDBC framework modules for backend communication in the extended application. Developed Presentation Layer using HTML, CSS, and JSP and validated the data using AJAX and Ext JS and JavaScript. Involved in the development of Oracle PL/SQL batch and real time processes for loading data from internal and external systems. Involved in write SQL Queries and Stored Procedures. Defined and Developed Action and Model Classes. Wrote Action Form and Action classes and used various HTML tags, Bean, FLEX and Logic etc., also configured Struts-Config.xml for global forwards, error forwards & action forwards. Used Struts framework for the development of user interface. Interaction with Client for better understanding of Business requirements. Build and deployment IBM Connections & Portal on Web sphere application server. Worked at client location for gathering the feedback from the users. Involved in Production Support and Enhancement Developments. Environment: Java/J2EE, Java

Script, JDK, HTML, XML, AJAX, Spring, Servlets, Spring MVC, Struts Framework, JSF EJB, JSP, Ext JS, Restful Web services, Apache Tomcat, Web sphere, Oracle, SQL Server, UNIX, Windows.

Java/J2EE Developer Conifer Health Solutions - Dallas, TX March 2016 to November 2017

Responsibilities: Involved in Analysis, Design, and Implementation of software applications using Java, J2EE, XML and XSLT and Web Services (SOAP, WSDL) Implemented J2EE design patterns like Singleton and Session Fa ade. Developed Fa ade classes to encapsulate the business logic and hide the implementation details of the data access classes and EJBs. Developed Action Classes, Action Form Classes, created JSPs using Struts tag libraries and configured in Struts-config.xml, Web.xml files. Involved java multithreading to cascade multiple changes on multiple records in only one transaction and developed a batch process framework. Developed User Interface having animations and effects using JSF, JavaScript and HTML. Designed, developed and maintained the data layer using Hibernate and performed configuration of Struts Application Framework. Used JSF framework with AJAX in developing user interfaces using JSF UI Components, RIA components, Validator, Events and Listeners. Implemented the Struts frame work with MVC architecture. Developed the presentation layer using JSP, HTML and client side validations using JavaScript. Developed middle-tier application with J2EE using Servlet, EJB, Java Beans and Web Services Standards (SOAP, WSDL, UDDI) Developed DAOs (Data Access Object) using Hibernate as ORM to interact with DBMS - Oracle. Created XML Schema, XML template and used XML SAX/DOM API to parse them. Applied J2EE design patterns like Business Delegate, DAO, and Singleton etc. Deployed and tested the application using Web logic application server. Involved in coding, code reviews, Junit testing, Prepared and executed Unit Test Cases. Implemented and used Web Services with the help of WSDL, SOAP and JAX-WS to get updates from the third parties. Used Log4j for External Configuration Files and debugging. Designed various tables required for the project in Oracle 10g database and used the Stored Procedures in the application. Wrote and debugged the ANT Scripts for building the entire web application. Used CVS for version control across common source code used by developers. Worked with QA team in preparation and review of test cases. Environment: Java Script, Java EE,

Servlets, Spring, JAXB, IBM MQ Series, XML, XSL, XSD, CSS, PVCS, AJAX, MVC, HTML, Multithreading, Eclipse, JUnit, Http Unit, JTS, UNIX, Hibernate, Oracle, Windows. Software Engineer Atos India Pvt. Ltd January 2014 to December 2015 Responsibilities: Developed the middle tier using Session Bean, Entity Bean / DAO and Business Objects. Database layer is developed using - Oracle while Presentation layer developed using JSP. Used Web services, Web Processing Service (WPS), BPEL, and REST extensively for Operations module. Technologies SOA, SOAP, MTOM, TCPIP, TLS, PKI, WSDL, SAML, XSD, Xpath, JMS, and MDB are also used. Eclipse is used for application development. Deployed the packaging on to Web Logic application server. Contributed to project by working on end to end flow - developing JSP's, Servlet, action classes of Spring and to database front by writing various SQL queries and Stored Procedures. Developed an editor using JFC Swing. Designed and developed reports using Crystal Reports and JReport. Used Java Beans for the required JSP components. Built, tested and debugged JSP Pages for critical modules in the system. Coded the Taglibs to aid front-end JSP pages. Deployed the application on the server including installing My SQL database and setting up JDK and Tomcat. Developed supporting JAVA classes that controlled the whole flow of the module as per specifications. Involved in the high level and low level designing of the admin and Info center module. Coded the designated Java server pages (JSP's) and associated front-end screens using JSP as per specifications. Developed an application using JFC Swing for manual data porting from Accounts Payable to Accounts receivable system. Used Toad and Oracle SQL prompt to interact with the database. Involved in client interaction for resolving technical and functional issues on a daily basis. Developed the user interface layer using spring framework. Business Objects is used for Reports. Rational Rose (ClearCase, Clear Quest, RequisitePro, Test Manager), Rational Software Architect (RSA) is used for process. Developed an upload - download tool using JFC Swing on FTP. Environment: Java, J2EE, Java Script, JFC Swing, JSP, JDBC, AJAX, XML, JUnit, Servlets, Spring, Hibernate, Tomcat Web Server, Web logic Server, Xpath, Oracle, UNIX, Windows. Skills J2EE (5 years), JAVA (5 years), JSP (5 years), ORACLE (5 years), SERVLETS (5 years) Additional Information TECHNICAL SKILLS: Java Technologies

Java, J2EE, Spring, Hibernate, Web Services, SOA, SOAP, Axis, EJB, JSF, My Faces, Struts, iBATIS, Servlets, JSP, JSTL, JMS, JNDI, Applets, JNI, RMI, CXF, Salto DB, JMX    Application Servers BEA Web logic, WebSphere, Apache Tomcat, JBoss, JRUN    Design and Graphics HTML, CSS, Boot Strap, Photoshop, Dreamweaver    XML Technologies XML Parsers (SAX, DOM, Pull), XSL, XSLT, JIBX, JABX    IDE & Tools    Eclipse, IntelliJ IDEA, Maven, ANT, Log4j, TOAD, JBuilder, WSAD, Magic Draw, UML, HPQuality Center, Amber Point Continuous Integration Cruise Control and CC.NET    RDBMS/Tools Oracle, DB2, MySQL, SQL Server    Operating System Windows, UNIX, LINUX, Mac OS
