

Front End Developer Front End Developer Front End Developer - Wells Fargo Bank Fremont, CA \*

Around 11+ years of full stack hand code experience in Web and Mobile Applications development using an array of technologies like HTML/HTML5, CSS2/ CSS3, JavaScript, jQuery, AJAX, JSON, Redux, CLI, NodeJS, Spring MVC, Web Services. \*

Expert knowledge of the UI design process and deliverables throughout the development lifecycle. \*

Strong knowledge of Object Oriented JavaScript programming. \*

Experience in modern front- end development with NodeJS and Command Line Interface, Jade, Less pre-processor and DustJS. \*

Worked in developing Accessible Web and Mobile applications using ARIA roles, states, and properties. \*

Experience in integrating SPA using jQuery, RequireJS, DustJS, Redux. \*

Experience in building cross-browser compatible web applications. \*

Experience in developing D3JS, Highcharts, SVG and Sprite. \*

Experience in writing Jasmine unit testing. \*

Strong knowledge of Core Java/J2ee, JDBC, JSTL, Servlet, XML, Spring MVC, Design Pattern, Middleware and Relational Databases. \*

Professional understanding of SDLC and its various phases such as analysis, estimation, design, development, and testing. \*

Experience in using various IDE/Version Control/Tracking tools (JIRA, Rally, Clear Quest, GIT Issue tracker, GIT, SVN, TFS, STS, Eclipse, RAD, SublimeText, and Webstorm). \*

Good web and application debugging skills using the Chrome developers tool, SDK, and XCode. \*

Effective team player, quick learner, self-motivated with a strong interest in modern Front- End development and web accessibility. \*

Experience in Rapid project development methodologies. \*

Highly passionate about new technologies and learning them. Skilled Areas HTML4.0/5 CSS2/3 JavaScript JQuery AJAX JSON NodeJS CLI DustJS Jade LESS/SASS RequireJS D3JS Highcharts Redux Jasmine Web Accessibility Java/J2EE GIT JIRA

Transferable Skilled Areas \*

Modern Web Stack HTML5, CSS3, NodeJs, SASS, LESS, NodeJS, CLI, D3, Highcharts, Gulp, GIT, DustJS, Jade, RequireJS, Express, Sprite, Modernizer, hammerJs. \*

Web Technologies HTML, CSS, JAVASCRIPT, AJAX, JQuery, AngularJs, Web Service. \*

Programming Language Core Java, C, C++, PL/SQL \*

J2EE Technologies Servlet, JSP, JSTL, Spring MVC, Design Pattern \*

Middleware IBM MQ, LDAP \*

Database DB2, Microsoft SQL Server, MySQL \*

Operation Systems Unix- Mac OS X, Windows, Linux. \*

Version Tool GitHub, SVN, TFS. \*

CMS Platform TCM. \*

IDE/

Tool WebStorm, Sublime, Eclipse, STS, RAD, Terminal, JIRA, Clear Quest, Splunk. Sponsorship required to work in the US Work Experience Front End Developer Wells Fargo Bank - San Francisco, CA March 2015 to Present Project Mobile Banking Applications Development Environment HTML4/HTML5, CSS2/CSS3, JavaScript, jQuery, RequireJS, AJAX, JSON, NodeJS, CLI, Redux, D3JS, HighChart, DustJS, Jade, Less, Accessibility, Jasmine, Gulp, GIT, Spring MVC, Web Service, JIRA, Clear Quest. Duties

- \* Leading the Front- End development on the completely re-designed core landing application in the secure session.
- \* Main collaborator to the Front- End framework which ensures responsive interface, secure session, and ADA compliance using modern technologies & best practices in Node.js, CLI, Redux, Gulp, RequireJS, Dust.js, Less, and Jade.
- \* Key member of the team which unveils single-page web applications targeting all modern platforms for both in-app and browser experiences for 26+ million users with 50+ million daily logins.
- \* Developing highly modularized and advanced object-oriented (OOP) design in JavaScript to ensure reusability, extensibility, and ease of maintenance.
- \* Framework built-in client-side optimization with minified JS/CSS with SVG sprites or data-URI.
- \* Test-driven development (TDD) with Jasmine and Karma for unit-testing and code coverage.
- \* Automated documentation and tutorial using JSDoc, markdown and RAML spec.
- \* Managing and conducting the development of multiple ongoing projects for different platforms on daily basis.
- \* Instructing peer developers for assigned tasks and code reviews.
- \* Coordinating side-by-side with server-side and native dev teams for integrating solutions.
- \* Iterating with customer experience (CX) and quality assessment (QA) teams for deliverables and validation.
- \* Agile team-formation and task-assignments through daily scrums, stand-ups, and peer- coding sessions.
- \* Consolidating on-boarding training process and hosting regular on-site KT sessions / tech-reviews.
- \* Safeguarding code quality and standardizing coding guidelines with help of Git.
- \* Continuous exploration on the variety of libraries and vendor solutions.
- \* Expertise in mobile Front- End development with platform/device-specific know-hows.
- \* Hands-on experience in device debugging techniques and the mindset of problem- solving.
- \* Proved to work efficiently in a team environment with tight deadlines.

Front End Developer MetLife - New York, NY August 2013 to February 2015 Project MetLife.com Mobile website development. Environment

HTML4/HTML5, CSS2/CSS3, JavaScript, jQuery, RequireJS, AJAX, JSON, D3JS, Accessibility, Spring MVC, Web Service, TCM, Rally, Clear Quest. Duties

- \* As a part of the metlife.com team develops reusable components, plugins, libraries and adoptive responsive interfaces.
- \* Use a mixture of Require JS, jQuery, HTML5, CSS3, AJAX, D3JS to design the components and SDL Tridion to enable collaborative environment.
- \* troubleshoots errors and solve issues that arise in various devices and experiences.
- \* Analyze business requirements, provide feedback and develop plans to meet requirements.
- \* Leads technical development of projects, implements critical enhancement, validates accessibility and performs code reviews. Led large code migrations and refactoring efforts.
- \* ARIA roles, states and properties are used to achieve accessibility in the developed web pages.
- \* Developed Radial Progress Bar, Pie and Donut Chart plugin component with D3JS.
- \* Worked with backend developer to troubleshoot front- end integration related issue.
- \* Created mobile-optimized interface spec and conducted iterative review session with backend team and external service stakeholder.
- \* Worked in Rally-Kanban Rapid Iteration development.

Applications Developer WellPoint Inc - Chennai, Tamil Nadu June 2010 to July 2013 Hoag, Blue Shield of California Project Well Point - Web Apps, Hoag Mobile, BSC Mobile Web Environment HTML4/HTML5, CSS2/CSS3, JavaScript, jQuery, RequireJS, AJAX, JSON, Accessibility, Spring MVC, Web Service, Struts 1.1, JSTL, JSP, Servlet, Acrobat Pro9, SQL server 2005, SunOne Ldap, RAD, Weblogic 8.1, IIS7.5, Clear Quest. Duties

- \* As part of Hoag provider mobile-web development team develops foundation framework & UI component with JavaScript, JQuery, RequireJS, HTML5, CSS, AJAX, JSON.
- \* Created array of component with grouped structure as plugins, libraries, DAO to make common AJAX component for all the service call and processing the response data.
- \* Responsible for designing page layout using HTML5, CSS, Media Queries along with JQuery and adding dynamic functionality to each module.
- \* Worked closely with CX designers to understand the detailed intuitive UI prototypes and components.
- \* As part of BSC-Provider Portal mobile-web development team Enhanced existing application with JavaScript, JQuery, HTML, CSS3 AJAX, JSP, JSTL standard/Custom Tag lib and Spring MVC.
- \* Extensively involved in redesigning the entire site with CSS styles for the consistent look and feel across all

browsers and all pages. \* Implemented JQuery to improve the overall usability of the website interface. \* Used best coding practices and naming conventions while writing code in JavaScript, JQuery, HTML, and CSS. \* As part of WellPoint - Web apps Portal development team, Worked various ongoing project for Member web enrolment and Employer Group Inquiry application with Servlet, JSP, JSTL, JavaScript, HTML, CSS, Struct1.1, Acrobat Pro9. \* Prepared Toolkit reference document for Weblogic 8.1 to Websphere7.0 Migration. Worked extensively on fixing WebLogic source API/configuration compatibility issues. \* Supported Apps Scan Security and Performance test fix. Applications Developer Standard Chartered Scope International - Chennai, Tamil Nadu August 2006 to June 2010 Department Consumer Banking - Systems Development Platform Online Banking Applications. Education Master of Computer Applications in Computer Applications Bharath Institute of Higher Education and Research Links <https://www.linkedin.com/in/kannan-masilamani-5b3a721b/>
