

Java Developer Java Developer 2+ years of professional experience in developing back-end code for web applications and Master's and Bachelor's in Computer Science. St. Louis, MO Around 2 years of professional experience in developing back-end code for web applications and a graduate degree with Master s and Bachelor s degrees in Computer Science. Knowledge on the technical phases of Software Development Life Cycle (SDLC). Strong knowledge in Object Oriented Analysis and Design (OOA & OOD) and OOP programming. Proficient in J2EE design patterns such as Singleton and Factory pattern. Experience in building User Interfaces (UI) using HTML5, CSS3, JavaScript frameworks. Worked on frameworks like Spring MVC and Hibernate. Knowledge on RESTful web services using Apache Tomcat Server. Proficient knowledge in databases like MySQL and Oracle DB Server. Experience in developing, configuring and deploying applications in Apache Tomcat. Familiar with usage of build tools like Maven and CI/CD tools like Jenkins. Knowledge of writing Manual and Automated Test scripts using Selenium. Ability to learn new frameworks, design patterns, architecture and programming languages. Sponsorship required to work in the US Work Experience Java Developer Union Pacific Rail Road - St. Louis, MO October 2018 to April 2019 Project is migration of a desktop application built on Java Swing/ C++ to a web application on AngularJS/ Java. Part of daily group and one-on-one SCRUM meetings with Project Manager. Main duties involved are working closely with the Project Manager and Team Lead to explain them the screen logic of the Java Swing code and service logic of the C++ code. Using my documentation, responsibilities involve working with the front end and back end teams in writing services in Java and coding the front end of the web application using JavaScript/AngularJs. Worked on RESTful Services for creating the web services. Used JSON to transmit data between client and server. Framework used in the services code for Java is Spring MVC. Helped the Testing team with writing automated test scripts using Selenium Webdriver to test the web application being developed. Use ANT as the build tool for automation. Use JIRA for tickets that were assigned to keep a track of the issues/bugs/request and to attach the documentation that I write. Student Assistant University of North Texas January 2016 to December 2017 Prepared and published responsive websites using content management systems

(WordPress, Cascade); collaborated with communication experts to introduce new features to the design. Graded students web design related submissions. Worked closely with professor to ensure fair, consistent grading and standards. Provided robust feedback to reinforce proper web design fundamentals. Junior Java Developer Aadhaar Softech Solutions PVT. LTD. September 2013 to November 2015 Involved in several phases of project execution. Followed TDD and scrum concepts of Agile methodology to produce high quality software. Involved in front end development of report generation module using Swing. Developed and implemented the application using Spring MVC. Responsible for Data Retrieval through DAO s from Database layer. Involved in creating the Hibernate POJO objects and mapped using Hibernate Annotations. Used Jenkins for continuous integration and deployment. Used MAVEN as the automated build tool and developed build file for compiling the code of creating WAR files. Used GIT for version control of the application. Performed Unit Testing by JUnit, Code Refactoring to adhere to the existing design. Used internal project management tool JIRA for Bug tracking and Issue tracking. Used JSON to primarily transmit data between client and server. Participated in production support and maintenance of the project. Education Master's in Computer Science University of North Texas - Denton, TX January 2016 to December 2017 Bachelor's in Computer Science Jawaharlal Nehru Technological University - Hyderabad, Telangana September 2011 to May 2015 Skills Java, Spring, Ajax, Javascript, JSF, Hibernate, Eclipse, Java J2Ee, XML, Core Java, J2Ee, Soap, Angular, Rest, JEE, MVC Additional Information Excellent written, oral and interpersonal communication skills. Excellent documentation and presentation sk A very good team player with ability to work independently with minimum or no supervision. Ability to meet deadlines and have flexibility in a fast-paced environment.
