

.Net developer .Net developer .Net developer - Prudential NJ 5 years of experience in Analysis, Design, Development, Implementation, Testing of Web Based, Client-Server, and N-Tier Architectures in different domains. Technical expertise in Microsoft Technologies, such as .NET Framework (4.0/3.5/3.0/2.0), ADO.NET, AJAX, ASP.NET (5.0/4.0/3.5/3.0/2.0), ASP.NET MVC Framework 5.0/4.0/3.0/2.0, AJAX, WCF, Web Services, SOAP, Visual Studio 2017/2015/2013/2012

Extensive experience in developing T-SQL queries, stored procedures and triggers using SQL SERVER 2012/2008/2005/2000 In depth knowledge of HTML/HTML5, CSS/CSS3, JavaScript, JQUERY, JSON, AJAX, ASP.Net Web API, ASMX web services, SOAP and IIS. Experience in SQL Server Reporting Services (SSRS)/SQL Server Integration Service (SSIS) and creating various types of reports like drill down, parameterized, cascading, Conditional, Table, Matrix, Chart and Sub Reports. Experience in generating Custom Reports and different types of Tabular, Matrix and distributed reports in multiple formats using SQL Server Reporting Services (SSRS). Work Experience .Net developer Prudential - Newark, NJ March 2017 to Present Project: Prudential Billing System Description: This project was created for Prudential's billing department. This system allows the department to access review and modify all the bills generated for clients, third party vendors, suppliers and many other miscellaneous systems. Responsibilities: Designed and developed Software Development Life Cycle (SDLC) from analysis and design to implementation with .Net Technologies Extensively used ASP.NET MVC Page Controller pattern to add functionality to individual pages such that to accept input from the page request, invoke the requested actions on the mode. Used ASP.NET MVC (using the Razor engine) to design front end. Used MVC Controller Action selectors, Action Results, Action Filters to control the behavior. Worked on MVC View Layout, Partial Views, and Html Helpers. Responsible for Designing and Developing the Reusable UI Components Like MVC Master Pages "Layouts and Nested Layouts", "View Start" and MVC User Controls "Partial Views". Used Data Annotation validators to perform validation in an ASP.NET MVC application. Design and development of rich GUI using HTML 5, CSS, JQuery and BOOTSTRAP. Added BOOTSTRAP Navigation in the layout page. Designed various HTML controls using BOOTSTRAP to make the page responsive. Used LINQ to Entities to

write Lambda Expressions for data sorting, filtering and projection in various dimensions. Used Entity Framework as ORM technology for creating the data access layer of the application. Used C# to implement business logic and applied SOLID principles in the business layer of the application. Heavily used JQuery Ajax to call controller actions from Views asynchronously. Used ASP.NET MVC framework to support the use of Dependency Injection to inject objects into a class, instead of relying on the class to create the object itself. Written stored procedures, executed queries for updating/retrieval of data in SQL Server using T-SQL. Had weekly meetings with business analysts to discuss the requirements and complete the tasks accordingly. Consumed the rest services using rest sharp. Created Web API/ WEB API controller to fetch data from SQL Server. Used Nunit for unit and integration testing of the application after developing it.

Environment: Visual Studio 2017, IIS 7.0, NET Framework 4.5, ASP.NET MVC, C#, WebAPI 2.0, SOAP, Nunit 2.6, Entity Framework 6.0, ADO.NET, SQL server 2017, SSIS, SSRS, IIS 8.0, XML 2.0, JSON 3.0, HTML 5.0, CSS 3.0, JavaScript .Net Developer Berkley Life Sciences - Ewing, NJ June 2016 to February 2017 REMS Berkley Life Sciences focuses on providing quality and competitively-priced liability insurance products that help protect the futures of innovators in the Life Sciences field. REMS provide underwrite the ability to create client policies using the data provided by other systems.

Responsibilities: Involved in the development of new applications and enhancement of existing applications to provide additional functionality. Developed WebForms in ASP.Net using C#.Net, AJAX Controls, HTML and JavaScript. Created WCF Services responsible for communicating and providing real time data from integrated server to Client Application. Created and consumed WCF Services using C#, ADO.NET and SQL Server. Achieved database connectivity and data processing using ADO.NET. Developed Web Forms using Master Pages, HTML controls and CSS. Created event driven Web Forms using ASP.NET and implemented Form Validation. Used Web Services (SOAP, WSDL) for communicating with other application and components. Client and server side validations using JavaScript and Validation Controls and performing the tasks related Database issues. Used SQL Server Integration Services (SSIS) for extraction transformation and loading data and scheduled SSIS Packages daily and weekly Basis.

Experience in designing and implementing database-level T-SQL, Views, SQL Queries    Created tables and Stored Procedures in SQL Server and used ADO.net to access the data.    Environment: .Net Framework (4.5/3.5/3.0), MVC, Entity Framework, ASP.NET, C#.NET, Web Services, LINQ, WCF, AJAX, ADO.NET, SQL Server 2012, SVN, XML, XSL/XSLT, HTML, JAVA SCRIPT, JQuery, HTML5, CSS3, JQuery UI, SSRS, Unit testing, System Testing, Visual Studio 2012 Software developer Cursor Soft - Surat, Gujarat May 2014 to April 2016 Description: Cursor Soft is a Custom Application Development Company which provides cost effective solutions to various Industries including Education, Healthcare, Publishing, Banking, Insurance, Retail, Telecom, Hi-Tech Industries, and other Business Industries. They develop and integrate a wide range of Customized Business Solutions for their Clients as per their Requirements.    Responsibilities:    Involved in the development of new applications and enhancement of existing applications to provide additional functionality.    Developed WebForms in ASP.Net using C#.Net, AJAX Controls, HTML and JavaScript.    Achieved database connectivity and data processing using ADO.NET.    Developed Web Forms using Master Pages, HTML controls and CSS.    Created event driven Web Forms using ASP.NET and implemented Form Validation.    Used LINQ to Objects, LINQ to SQL to manage, query, and order the list of contacts maintained by the application.    Used Web Services (SOAP, WSDL) for communicating with other application and components.    Client and server side validations using JavaScript and Validation Controls and performing the tasks related Database issues.    Used SQL Server Integration Services (SSIS) for extraction transformation and loading data and scheduled SSIS Packages daily and weekly Basis.    Experience in designing and implementing database-level T-SQL, Views, SQL Queries    Created tables and Stored Procedures in SQL Server and used LINQ for querying objects.    Designed and developed complete front-end application using ASP.NET/C#.NET Web Forms.    Developed front-end Interface using HTML, CSS, and JavaScript leveraging the Bootstrap framework and a SQL backend.    Created User Controls for the header and footer of the website which appears in all the pages.    Worked extensively on web forms and data binding controls like data list and dropdown boxes.    Used Java Script to perform client side validation and consumed web services into the web application.    Used

ADO.NET Connection, Command, Datasets, Data Adapter, Data Reader and XML to retrieve and store the data in SQL Server 2008. Implemented ADO.Net data binding controls like GridView in order to bind the data to the control and display the retrieved data. Created and manipulated stored procedures, functions, packages and triggers using SQL Server. Environment: .Net Framework 4.0/3.5, Visual Studio 2010, ASP.Net WebForms, C#, LINQ, AJAX, ADO.NET, SOAP, WSDL, JavaScript, JQuery, SQL Server 2008, SSIS. Education Bachelor of Computer Application in Computer Application Veer Narmad South Gujarat University - Surat, Gujarat Skills .net, Visual studio, Api, C#, Html, Javascript, Bootstrap, .net framework 4.5, Wcf, Reporting tools, Scripting, Svn, Xml, Xsl, Xslt, Ado, Db2, Ado.net, Sql server, Sql Additional Information TECHNICAL SKILLS Programming Languages .NET Framework 4.5/4.0/3.5/3.0/2.0, C#, ASP.NET, ADO.NET, T-SQL Web Technologies ASP.NET, ASP.NET MVC, Web Forms, AJAX, ASP, XML, HTML, JavaScript, JQUERY, Angular JS, Web Service Latest .Net Trend Windows Communication Foundation (WCF), MVC(Model-View-Controller) Pattern, WEB API Mark-up/Scripting Language HTML, HTML5, DHTML, CSS, CSS3, XML, JavaScript, AJAX, XML, XSL/XSLT, Bootstrap Web Services SOAP, WSDL, XML Web Service, WCF, Web API Databases SQL Server 2014/2012/2008/2005, DB2, MS-Access, Source Control Systems/IDE Tem Foundation Server, Microsoft Visual Source Safe (VSS), SVN, Visual Studio 2012/2010/2008/2005 Reporting Tools SQL Server Reporting Service (SSRS) Operating System Windows 7/Vista / XP / 2003/ NT/2008
