

Network Administrator and Penetration Testing Network Administrator and Penetration Testing Ho Chi Minh I have graduated from Butler Community College and I am currently a senior at Wichita State University. My major is Computer Science. I am strongly interested in Penetration Testing.

Work Experience Network Administrator and Penetration Testing Tranaerospace - Wichita, KS January 2017 to January 2019 I was a network administrator at Tranaerospace for two years, during this period I have learned a lot not only in communication but also in problem solving skills. I performed a successfully web vulnerabilities assessment for the company. I also performed successfully wireless vulnerabilities assessment and penetrated the wireless system of the company. I keep updating my knowledge in cyber security in order to be well prepared and be able to come up with a reasonable backup plans when things go wrong.
