complex SPs for reporting (SQL Server, T-SQL, MySQL, SQL, AWS) Create webhooks for 3 rd

party providers (.NET Core, AWS, API Gateway, Lambda, SQS, S3, Aurora, AWS) Senior .NET

Developer Minds at Work May 2010 to Present RESPONSIBILITIES: Custom development for

clients in C# Creating/modifying SQL Server systems Creating client mockups Unit and

functional testing Creating technical documentation Senior .NET Developer Socialdealer October

2015 to March 2018 FactoryFix is a platform where it attempts to match commercial contractors to

companies. My role was to build the platform from the ground up. RESPONSIBILITIES:

sonieabraham2013@gmail.com Create platform (C#.NET MVC, RDS (SQL Server), AWS)

Integrate 3 rd party services into platform (C#.NET, WebAPI, S3, SQL Server) Design and build

SQL Server DB system (SQL Server, S3) Build a iOS & Android app (Xamarin, C#.NET, MVC,

SQL Server, WebAPI) Python Developer Verizon November 2013 to October 2015 Enterprise cloud

based identity service which handles registration, authentication, persona I management etc. for

use in large corporation. My role was to build out additional features and functionality as dictated by

Verizon. RESPONSIBILITIES: Creating RESTful API's that provide system information

(AngularJS, Django and Flask) Participate in daily team meetings to report on task status

Create unit tests to test functionality and accuracy of code (Python) Participate in regular code

reviews PROJECTS: Created website to implement cloud-based identity service (Django, Flask,

AngularJS, Eclipse) Created Restful API's to integrate and enhance functionalities of the

application (Python, Cassandra, Eclipse) Created desktop application to generate TOTP to

allow user to authenticate into the system (.NET, MVC 4.0, VS 2013) Created POC Android

application to show the how the app will work with a service to authenticate users (Java, Eclipse)

NET Applications Developer Technatomy Corporation September 2013 to November 2013

RESPONSIBILITIES: sonieabraham2013@gmail.com Creating mockups for Recertification

Accounting & Tracking System (RATS) Creating database schema for RATS Creating first draft

of technical document for RATS NET Applications Developer Socialdealer July 2013 to September

2013 RESPONSIBILITIES: Creating a custom SDK for Google's Blogger API Building the interface for Google's Analytics API into an ASP.NET application Building WebAPI's that provide analytical and system information Building interfaces to Edmunds API into the main platform Using Kendo to build advanced UI for admin pages NET Applications Developer Enterprise CMS System May 2009 to July 2013 for use in large pharmaceutical companies. Currently in functional role as lead. RESPONSIBILITIES: Manage builds for Dev, QA and Release branches Manage TFS branches and merges Manage release management Work with Support and QA teams to ensure smooth transition of release code. Refactor code as needed to ensure efficiency and compliance to company standard Assign tasks and bugs (using OnTime) to team members for completion Follow up on previously assigned team tasks Participate in weekly team meetings to report on project status Create unit tests to test functionality and accuracy of code Participate in regular code reviews PROJECTS: Created online Content Management System for use in Pharmaceutical industry (ASP.NET, C#, VB.NET, AJAX, LINQ, JavaScript, SQL Server 2005/2008, Oracle 10/11, Aspose, Telerik) Created online Medical Information Repository System for use in Pharmaceutical industry (ASP.NET, C#, AJAX, jQuery, LINQ, JavaScript, SQL Server 2008, Oracle 11, Telerik, Aspose, AceOffix) Create online Administration website to configure and schedule windows services (ASP.NET, C#, Aspose, Telerik, AceOffix) Created windows services to manage notifications, alerts, and execute scheduled tasks (C#, SQL Server 2005/2008, Oracle 10/11) Created customized solutions for needs of specific clients in separate TFS branches (MS Team Foundation Server 2010) Created highly interactive UI using Telerik tools (ASP.NET, C#, VB.NET, AJAX, LINQ, JavaScript) Created Aspose-based reports for clients Converted desktop-based applications to web-based (ASP.NET, C#, VB.NET, AJAX, LINQ, JavaScript, jQuery, SQL Server 2005/2008, Oracle 10/11, Telerik) SVN conversion to TFS (Subversion, MS Team Foundation Server) sonieabraham2013@gmail.com Programmer Analyst Common Sense Solutions October 2007 to April 2009 RESPONSIBILITIES: Developed Applications using C#, VB.NET and SQL Server 2005 Developed web applications using ASP.NET, PHP, ASP, MySQL, and SQL Server 2000/2005 October 2007 - April 2009 Developed stored procedures, queries,

triggers, tables, views and functions Developed a variety of reports in Crystal Report Developed specialized classes for data access layers and business logic PROJECTS: Created online Auto floor plan for a major bank (ASP.NET & SQL Server 2005) Created web site for a non-profit teaching foundation to handle applicants (PHP & MySQL) Created desktop application for a construction company to handle service calls (Access 2003 and SQL Server 2005) Created middleware application to export invoice information from Fieldpoint Alert into Traverse (C# & SQL Server 2005) Created web pages in classic ASP to automatically generate job numbers (ASP & SQL Server 2000) Modified an existing access application to work with ComputerEase data as well as push payroll information back into ComputerEase (Access 2003 & proprietary ComputerEase database) Created customized middleware application to transfer material and labor information from FabSuite to ComputerEase for a construction company (C#, MySQL, & proprietary ComputerEase database) Created order entry web application that integrates with QuickBooks (ASP.NET, QXML, & SQL Server 2005) Created customized workflows in Microsoft CRM Used Crystal Reports 8.5 & 9.0 to generate customized executive reports for senior management. C# Developer & Staff Supervisor NVision Engineering February 2003 to October 2007

RESPONSIBILITIES: Developed Applications using C#, VB.NET and SQL Server 2000/2005 Developed web applications using ASP.NET and SQL Server 2000/2005 Developed stored procedures, queries, triggers, tables, views and functions Developed a variety of reports in HTML and SQL Server Reporting Services Developed specialized classes for data access layers and business logic Managed staff of 6 programmers in India Managed staff of 3 programmers in US Produced productivity reports on a weekly basis Found contract employees to handle special assignments Conducted weekly employee code reviews Assisted customer with hands-on data entry during migration periods. PROJECTS: Web CRM Application - similar to Salesforce.com (C# & SQL Server 2005) Custom configuration of Netsuite.com for Online commerce (C#) sonieabraham2013@gmail.com Web Store Product Importer for online catalog (C# & SQL Server 2005 based) Online Order Entry System for Real Estate company (VB.NET & SQL Server 2000 based) Child Abuse Repository Database for use by Level 1 Trauma hospitals in IL to track

suspected child abuse cases and link to DCFS. (VB.NET & ASP.NET & SQL Server 2000 Application Specialist & Developer NVision Engineering July 2001 to February 2003

RESPONSIBILITIES: Developed client server applications using C#, VB.NET and SQL Server 2000 Developed web applications using ASP.NET and SQL Server 2000 Conducted application testing Created application documentation and training guides Participated in code review sessions Performed daily/weekly Code Backups Researched new techniques to improve user interface design

PROJECTS: Five E-Commerce Websites (Mix of C# & VB.NET, Oracle and SQL Server) Search Engine Optimization Software (C#) Customization of existing order entry software (ASP.NET, C#, and Oracle)

DBA/VB Programmer Fotel/GGX Inc September 1999 to July 2001

RESPONSIBILITIES: Developed software applications to assist in manufacturing process Managed existing applications and made modifications as required Assisted sales efforts by designing software to assess campaigns Modified other existing applications as necessary

PROJECTS: Created 2 large VB6 client/server projects with SQL Server backend. Migrated data and structures from SQL Server 7 to SQL Server 2000. Worked extensively with SQL Server 7/2000 to continually monitor/optimize and troubleshoot problems and bottlenecks Strong SQL experience including stored procedures, triggers, views, and security. Ported previous manufacturing data from Paradox 4 format to SQL Server 2000 format Designed, created, and maintained over 140 customized reports for all aspects of business including sales & marketing, R & D, manufacturing, asset tracking & inventory, and customer service. Used Crystal Reports 8.0 to generate customized executive reports for senior management. Worked with senior management to reduce overall production costs by capturing key aspects of production costs, which were then tracked along with production information. Setup and maintained software and hardware (installs, troubleshooting, upgrades Implemented customized email order tracking system Utilized MS Access & MS Excel for a variety of internal projects Developed an AI-based inventory tracking and ordering system sonieabraham2013@gmail.com

Intern (Developer/Analyst) Fotel/GGX Inc January 1999 to April 1999 Worked under an experienced VB/SQL Developer Researched employee/management needs as a business analyst Created presentations of project

scope & plans Designed and implemented SQL Server backend Worked with staff developers to make modifications to existing systems Tuned and optimized database for performance Created extensive documentation of existing systems Performed functional, integration and core system test of various system components Prepared numerous business requirements documents Setup and implemented backup & restore procedures Setup and implemented disaster recovery system

Education Biology, Chemistry, Anatomy & Physiology College of DuPage - Glen Ellyn, IL 2001 to 2003 Masters in Computer Science in Computer Science SRM Engineering College 1996 to 1999 Bachelors in Mathematics in Extra St. Teresa's College 1993 to 1996

Skills .NET (10+ years), API (4 years), ASP (10+ years), ASP.NET (10+ years), AWS.
