

Information Technology Business Consultant Information Technology Business Consultant

Information Technology Business Consultant Tampa, FL I am a consulting professional that has developed skills for enterprise and startup business development, consulting, and project management. I m familiar with frameworks such as Section 508, WCAG 2.0 (Level A and AA), and HIPAA for industry compliance. I have experience surveying physical and cyber security systems and providing recommendations to secure and improve systems according to business requirements. I have worked closely with executive management to design and implement a cohesive and strategic IT plan to meet their organizations business needs. I am looking for an opportunity to work in Tampa, FL with a keen interest in joining the Finance industry.

Work Experience Information Technology Business Consultant CloudView IT LLC - Miami, FL June 2018 to July 2019 Consulted and analyzed needs for both new and existing clientele providing a proposal and/or implementation of an enterprise-level IT solution for:
