

Senior UI Developer Senior UI Developer Senior UI Developer - Technik Inc Arlington, VA 9+ years of work experience as a Front-End/UI Developer. Worked on a range of projects using HTML 5, CSS3, JavaScript, jQuery, Bootstrap, Ajax, Json, React JS, Node JS, Angular JS, ES5/ES6. Experience in designing websites with W3C standards using HTML5, CSS3 to get best cross-browser user experience. Expertise in React JS framework to develop SPA. Proficient in Babel compiler and Webpack. Experience working with Angular JS to develop single page applications along with dynamic web applications. Hands on experience in React JS - Redux architecture. Excellent understanding of DOM. Handled all aspects of the UI development including designing, testing/debugging, and deploying. Experience in developing web pages in Responsive Design using Bootstrap. Used JSON for storing and exchanging information between browser and servers. Used jQuery to make the HTML and CSS code interact with the JavaScript functions to add dynamic web pages on the client side. Good Knowledge on React, Web Pack, ES6, and REDUX. Industry experience in various IDEs like Web storm, Notepad++, Microsoft Visual Studio Code, Brackets, Atom, Sublime Text. Expertise in designing and developing user experiences for Web Applications using Web Authoring tools such as Adobe Dreamweaver CS6, Adobe Illustrator CS6, Adobe Photoshop CS6 and Adobe Flash CS6. High level of expertise in CSS pixel-level layout, Consistency with browsers, Version and Platform Independence. Solid understanding of OOP concepts. Experience working on RESTFUL Web Services and Implementing RESTFUL APIs. Designed and added custom UI themes to web page using SASS CSS pre-processor instead of inline-styles or less. Expertise in version control tools like GIT, SVN and TFS to manage and control software development. Experience in using Package Managers like NPM and Bower and good command in using Task managers like Grunt, Gulp and Brunch. Experienced in fast paced Agile development environment and methodologies including Test Driven Development and Scrum with online tools like JIRA. Strong communication, collaboration & team building skills with proficiency in grasping new technical concepts quickly. Self-starter, inclined to learn new technologies and a good team player with good communication, organizational and interpersonal skills. Authorized to work in the US for any employer Work Experience Senior UI

Developer Technik Inc - Arlington, VA September 2018 to Present Responsibilities: Working on a migration project in TDD environment. [Angular JS to React JS] Convert designs and business requirements into high quality code. Develop and test re-usable React components for Verizon wireless Website for future use. Optimizing components for maximum performance across a vast array of web-capable devices and browsers. Handle accessibility requirements throughout the website as per the WCAG guidelines. Work with scrum master and meet deadlines for bug fixes using JIRA tool. Update existing applications to meet the security and functionality standards. Responsible for developing and maintaining responsiveness of the website across mobile, desktop and tablets. Responsible for testing the website for cross-browser compatibility including IE, Firefox, Safari and Chrome. Work with back-end team and co-ordinate in implementing Restful APIs. Used Middleware, Redux-Thunk in application to retrieve data from Back-End and to also perform RESTFUL services. Extensively used Git for version controlling and regularly pushed the code to Gitlab/Bitbucket. Environment: HTML 5, CSS3, Sass, Less, JavaScript, Bootstrap, Ajax, React JS, Redux, Flux, Node JS, JSON, Git hub, Restful API, Adobe Photoshop, Illustrator, XML, Adobe Dreamweaver.

UI Developer Assurant Solutions - Wayne, PA August 2016 to September 2018 Responsibilities: Responsible for designing dynamic and multi-browser compatible pages using HTML 5.0, CSS3, JavaScript, jQuery, React JS, JSON, AJAX. Used Babel an ECMA Script 6 to ECMA Script 5 compiler which allows using ES6 features in project and then compiles ES5 to use in production. Implemented a large part of the UI dynamic functionalities using CSS, jQuery UI, Typescript, and HTML. Used High Charts, D3JS and Ext JS4 for charting data and for supporting a wide array of browsers. Built dynamic web pages with Angular 2.0 with styling supported by Twitter Bootstrap for creating Responsive Websites. Developed components using React and all the advanced methods Functions in developing. Worked with React JS to build bootstrap components for UI web objects. Linked with REST API for rendering data through virtual DOM. Experience working on CSS Preprocessors like LESS along with JavaScript task runners like Grunt. Responsive web design (RWD) is developed using frameworks like Angular JS and MVC frameworks and Bootstrap. Worked with UX Designers to translate visual concepts into

functional online experiences, micro sites, and other digital content delivery. Developed single application to render dynamically based on the JSON from the Node JS server. Developed various screens for the front end using React JS and used various predefined components from NPM (Node Package Manager) and Redux library. React JS which allowed us to render pages on both the client and server using the same codebase. Used React JS for adding client-side interface for JavaScript templating and function binding. Written and modified the technical documents. Redux-Saga used to make application side effects easier to manage, more efficient to execute, simple to test, and better at handling failures. Used JIRA for tracking issues reported by testing team. ENVIRONMENT: HTML5, CSS3, JavaScript, jQuery, Bootstrap, JSON, AJAX, React.js, Angular.js, Node JS, LESS, Grunt, Jasmine, GIT. Senior UI Developer Verizon Wireless - Lake Mary, FL July 2014 to August 2016 Responsibilities: Design, develop and test HTML5, CSS3, Bootstrap, JavaScript, jQuery and React.JS that meets accessibility and web browser standards for website. Responsible for front-end UI design using HTML5, CSS3, JavaScript, jQuery, jQuery plugins. Designed CSS templates for use in all pages on the website working with CSS Background, positioning, text, border, margin, padding, and table. Applied optimization techniques to reduce page size and load times to enhance user experience. Developed user interface by using the React JS, Flux for SPA development. Implemented React JS code to handle cross browser compatibility issues in Firefox, IE 7, 8, 9, Safari and Google Chrome. Used React-Router to turn application into Single Page Application. Worked on React JS components, Forms, Events, Keys, Router, Animations and Flux concept. Worked on responsive design and developed responsive websites that could be served to desktop, tablets and mobile users using React.js. Maintained states in the stores and dispatched the actions using Redux. Implemented the Drag and Drop functionality using React-Draggable. Worked closely with the Back-End team to display data using the Custom Components, library Components, and Redux. Worked with Passport and JSON web tokens for authentication and authorization security configurations using Node.js. Worked with NPM commands and using package.json for managing dependencies and dev dependencies of Node JS applications. Used Middleware, Redux-Promise in application to retrieve

data from Back-End and to also perform RESTFUL services. Called the Restful web services calls for POST, PUT, DELETE and GET methods. Used React flux to polish the data and for single directional flow. Developed the application logos and images by using Adobe Photoshop CS6 and Illustrator. Used Object Oriented Programming concepts to develop UI components that could be reused across the Web Application. Extensively used Git for version controlling and regularly pushed the code to GitHub. Interacted with Testing Team, Scrum Masters and Business Analysts for fixing of Issues. Environment: HTML, CSS, JavaScript, Angular JS, Node JS and React JS, Redux, Bootstrap, JSON. Web Developer Fiserv - Alpharetta, GA June 2012 to July 2014 Responsibilities: Developed page layouts, navigation and presented designs and concepts to the clients and the management to review. Web design and development, application development using HTML, JavaScript and Dreamweaver. Integrated the Java code (API) in JSP pages. Responsible for ensuring the pattern consistency across all pages. Applied J-Query scripts for basic animation and end user screen customization purposes. Used AJAX and JSON to make asynchronous calls to the project server to fetch data on the fly. Used jQuery plug-ins for Drag and Drop, Widgets, Menus, User Interface and Forms. Involved in writing jQuery-based AJAX requests using jQuery. Get (URL, data, callback, type) or jQuery. AJAX (options) and jQuery. Post (URL, data, callback, type). Responsible for design and development of the web pages from mock- ups. Responsible for creating the screens with table-less designs meeting W3C standards Created web pages which are informative and yet very neat and interesting to look at. Designed flash plugins for including different functionalities and content. Involved with bug fixing on functionality, performance and designing issues with JavaScript and jQuery Environment: HTML/ CSS/CSS3, Angular JS (1.x), JavaScript, jQuery, AJAX, JSON, Dreamweaver. Web Developer Conduent - Austin, TX May 2010 to June 2012 Responsibilities: Developed Page layouts, Navigations and presented designs and concepts to the clients and the management to review. Developed web presentation layer using HTML and CSS according to internal standards and guidelines. Development the whole application module using technologies such as JavaScript, jQuery and more. Wrote a combination of jQuery plug-ins, as well as completely custom JavaScript to build a

bleeding-edge, AJAX-driven user interface. Involved in writing application level code to interact with APIs, Web Services using, AJAX, JSON and XML. Designed and developed intranet web applications using JavaScript and CSS. Responsible for the design of web applications right from the conceptualization stage to its implementation and maintenance. Responsible for checking cross browser compatibility and worked on different browsers like Safari, Internet explorer, Firefox and Google chrome. Designed the table less web applications using CSS as per W3C standards. Worked closely with SQA team in fixing the reported bugs/defects and checking cross platform compatibility. Environment: HTML, CSS, JavaScript, jQuery, JSP, AJAX, JSON, XML, SVN. Education Bachelor's Skills Visual studio, C++, Javascript, Bootstrap, Redux
